Ho! For the Fourth

That St. Johns will have a glorious celebration on July 4th is now assured beyond peradventure of doubt. The fire department has been busy as bees lately in developing plans, and the different committees working with a vim and vigor that can augur nothing less than an unqualified success of the undertaking. Negotiations are being completed for landing a number of high class attractions of a most interesting and unusual nature. Finances are being raised with an ease that is most gratifying, business men and individuals donating funds with a generosity that is pleasing the firemen immensely. Over \$400 was raised in a very short while, and so far only a few of the business interests have been interviewed in relation to donations, but all will be given an opportunity to contribute. The more money raised in more frantic glee will the eagle scream. The chances are that two days will be utilized in the celebration—Friday and Saturday. Watch for announcement of events later.

IOWA MAN STUCK WITH PITCHFORK

A farmer living in the Northern part of Iowa stuck himself in the leg with a pitch fork. The wound would not heal and for two years he had a running sore. He tried all the common salves and liniments and sometimes the sore would heal, but it always broke open again. Finally he healed it up to stay healed with Allen's Ulcerine Salve.

This salve is one of the oldest remedies in America and since 1869 it has been known as the only salve powerful enough to cure chronic ulcers and old sores of long standing.

Allen's Ulcerine Salve acts by drawing out the poisons and healing the sore from the bottom up. It is so powerful that it heals new cuts and sores in one-third the time that common salves and liniments take. And it heals burns and scalds without a scar. Sold by the St. Johns Pharmacy and other leading druggists.

He has little love for Portland ever since he was assessed for a sewer that was six feet too high for use from his property and considerable distance away.
