Celebration Notes

It is proposed that the parade be headed by the G. A. R., W. R. C. and L. of G. A. R.

Parties desiring concessions during the celebration should interview P. G. Gilmore in regard to same.

C. C. Currin, the popular pharmacist, will act in the capacity of marshal in the parade July Fourth.

A water war between the local department and an out of town company will be one of the features of the celebration.

Col. L. D. Mahone of Portland has been secured to deliver the oration in St. Johns on July 4th. He is an eloquent and fluent speaker.

There is a possibility that a balloon ascension will be one of the features of celebration. Negotiations for securing such attraction are now under way.

A representative of the Van Runk Amusement company will be in St. Johns tomorrow to complete arrangements for having their street carnival here during the jubilee.

All young ladies who desire to enter the contest for Goddess of Liberty in the Fourth of July parade are requested to leave their names at either of the local theatres.

The Fire Department desires the names of 48 girls, between the ages of ten and twelve years, who are willing, with their parents' consent, to participate in the parade on July 4th and represent the 48 states. Names will be received at Gilmore's barber shop on Philadelphia street, or at this office.

The Fire Department has decided to utilize two days in celebration of Independence Day, Friday and Saturday, July 4th and 5th, being devoted to the purpose. There will be interesting events and something doing all the time. The Broncho Buster race will take place Saturday afternoon. Ball games in which the Commercial club ball team, the business men's club and University will participate will be played on both days, a prize of \$50 being awarded to the winning club of the series. Several lively four round amateur boxing matches will take place on Friday evening, and professional wrestling matches will occur on Saturday evening. It is also proposed that each state in the Union will be represented by a little girl in the parade. New features are constantly being added, and by the time the Fourth arrives enough attractions to fill two days brim full of enjoyment will have been provided.

The church has secured Mr. Leek from Colorado to take charge of the music. He will not only direct the choir, which meets for rehearsal Wednesday night at 8:30 o'clock, but will also do solo work. We hope with his assistance to make the music quite an attractive feature of the church services.

Mrs. Smith—Did you say you could have hot water in fifteen minutes? Mrs. Jones—Yes; Overstreet, at 311 S. Jersey, put a coil in my stove and I never saw anything to compare with it. You just call up Columbia 590, and Overstreet is on the job. Mrs. Smith—And did I hear he guaranteed his work? Mrs. Jones—Yes; he stands back of everything he does, and his prices are very reasonable, too. Mrs. Smith—Well, goodbye; I am so enthused over it, I am going to call Col. 590 and have one of those coils put in my stove at once. I'll let you hear from me just as soon as I give the coil a trial.

Currin says: Come in and get free literature and free instruction in Kodak processes. It's free to you for the asking.

Out of the frying pan into the fire is that what the people of St. Johns have done in electing an almost entirely new council. Some good work has been done in the matter of changes, which it appeared was the only way to do it, but was that the only thing the people expected of the new council? Not by any means, for it was expected that they would practice stricter economy, and not throw the taxpayers' money to the winds, or in such a way that it would only benefit some single persons or a very few, or to accommodate a few swell heads, at the expense of the common taxpayer. Two such measures are now before the council. One is the water question, and the other is the Willamette boulevard. In the latter, or the boulevard case, if it is true that the council is paying \$180 of the people's money out on that farce to appeal a case to the Supreme Court, for a case that does not belong there at all, and is a case that the council and the people should decide, for the records show that in the neighborhood of Buchanan, Polk and Tvier streets, where the greatest contention is on the boulevard, the first subdivision provided for a 60 foot street, and the second subdivision some years later on the opposite side of the street provides for a 100 foot street, which now leaves the street 80 feet wide. Now if the people of St. Johns want the street to be 100 feet in width, all there is to do is for the council to condemn the strip and pay for it, and widen it out to that width, and save the \$180 of the people's money.—Randolph Graden.
