The following squib taken from the Gresham Outlook proves how much confidence some editors have in the great National game of base ball, and such items cause more harm to the sport than any other kind of knocking. 'Tis a pity that editors will give expression to such an unworthy and unmerited thought:
"That world's championship series will be a see-saw to the end. Of course it would never do to shut the games off too soon. There is too much money in the gate receipts to curtail the sport before the specified number of games have been played."

A couple of years ago a cranky sort of an old man came into this office and stopped his paper because something in it did not just suit his fancy. We have frequently met him on the street since that time and it is amusing to note the look of surprise on the old fellow's face that we are still in existence regardless of the fact that he stopped his paper. Some day—and it won't be long either—that old gentleman will turn up his toes. His earth will be still forever. Neighbors and friends will follow his lifeless clay to the silent city and lay them to rest among the flowers. An obituary will be published in these columns telling what a kind father, a good neighbor and beloved citizen he was—which the recording angel will overlook for charity's sake, and in a very short time he will be forgotten. As he lies out in the cold, cold graveyard wrapped in the silent slumbers of death, he will never know that the last kind word spoken of him was by the editor of that paper which in life he so spitefully "stopped." Did you ever pause just a moment and think that your editor, whoever he may be, will write your obituary some day?—Exchange.

Persons desiring to join the crowd from the Commercial club at the bridge banquet given by the North Portland Commercial club at 1140 Albina avenue November 1st, should notify Secretary J. E. Hiller of the fact immediately so that proper reservation may be made. The price is 50 cents per plate, and it is certain that thirty from the Commercial club will be present. Better go along and show the folks that St. Johns is there with both feet. Take your wife along.

Postmaster Monahan states that there are still a number of people in St. Johns who fail to give their friends their proper address, and therefore much mail comes to the local office without the street address. This results in much delay in delivery, and in some cases mail is returned to the Portland office because it is not properly addressed. Care should be taken in furnishing proper addresses to friends in other sections whom St. Johns folks are in correspondence with to insure safe and quick delivery.

Preliminary plans have been made and another conference will be held at Albany on October 30 in the movement to combine the eight Willamette Valley counties in the preparation and installation of a great valley exhibit at the Panama-Pacific Exposition at San Francisco in 1915. It has been decided that this is a better plan than to attempt to put in an exhibit from each county. The proposition has met with general approval and its success is already assured.

Hatched in April, 1912, and commencing to lay at the age of five and one-half months, a hen at the Oregon Agricultural College has broken the world's record for the production of cackleberries in one year. She laid 23 eggs in twelve months, which is the highest record in the United States and two more than the world's record. Her most notable feat, and which probably has never been equaled, was the laying of 99 eggs in 100 consecutive days during the spring months. The hen is a cross between the Plymouth Rock and White Leghorn breeds.

The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing light. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore, electric lamps can be located in any place, thus affording any desired distribution of light.

No other lamps possess these qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.
