The Knights of Pythias held an open meeting in Biecker hall last Friday evening. The evening's entertainment was composed of card playing, feasting, speechmaking and dancing. Dr. Vincent and Mrs. D. The city council has practically decided that the citizens of St. Johns shall do their own choosing of park sites. It has rejected the park committee's report recommending four tracts, which leaves the matter of selection of sites still an open question. The probabilities are that a list of eight or ten tracts will be submitted to the voters to choose from, council only restricting the number of tracts that shall be acquired—which may be as high as four and as low as two. A bond issue in amount sufficient to cover cost of highest priced tracts will likely be embodied on the ballot. City Attorney Gatzmyer is investigating to discover if any legalities stand in the way of conducting an election in such manner.

At a meeting of the board of governors of the Commercial club Monday evening, A. S. Benson, A. Larrowe, and P. H. Edlefsen were appointed a committee in conjunction with the secretary to line up as many St. Johns autos as possible to appear in the Interstate Bridge parade in Portland Saturday afternoon. It was also decided that a request be made of the city council for use of the city's decorations during the parade and at the banquet in the evening. All who have signified their intention of attending the banquet are requested to meet at the Commercial club at 7:30 Saturday evening. Secretary Hiller was directed to communicate with the city council relative to having the city engineer complete the survey for a side track to the city dock.

To vote "No" on the two University of Oregon appropriation bills at the special election of November 4th is not to save \$175,000 or any part of it in taxation. When the 1913 legislature found how desperately the University needed a new class room building and repairs and additions to four other buildings, it passed by a huge majority \$100,000 for the one and \$75,000 for the other. The state officials included the amount in the next levy. The \$175,000, therefore, has been provided for, and if it should be diverted from the University under this referendum, it will be spent by the next set of legislators. This levy for the University amounted to only 18 cents per \$1000 throughout the state levy and was the first in many years for additional room at the University, which now has as its main class room building a structure presented to it by the citizens of Lane county in 1876, and one built by the state in 1885. It has had no new building since completion in 1907 of the already badly crowded library.
