No definite further action has yet been taken on the public park proposition, but the latest move being advocated is to call a special election, the ballot to contain a list of proffered tracts, classified under the headings of "Park Sites" and "Plazas," the voter being given the privilege of voting for one of each only. The ballot also to authorize a bond issue in sum great enough to cover the cost of the highest priced park site and also the highest priced plaza, to be reduced if cheaper priced property be selected by the voters. Provision will also undoubtedly be made for money sufficient to place the two tracts in proper condition to serve the purposes for which they are to be secured.
