### Wants Mass Meeting

Editor Review: As there seems to be so much misunderstanding among many well meaning people regarding proposed park sites, due to some misconceived ideas and misrepresentations deliberately made for the express purpose of poisoning the public mind against the truth, I suggest that we have a well advertised, well attended meeting, either in the city hall or high school auditorium, and there let the truth be known, for it is the truth that makes us free.

The story is being freely circulated that one of the recommended park sites is a worthless steep hillside, directly in front of my place and that I had the same recommended so as to prevent a river view from being obstructed.

For information of those who are reporting or giving credence to these stories, permit me to state—That the Western Co-operative Co., a corporation, owns the land between my place and the river and that the same was never thought of, nor considered for one moment by the committee. That the proposed park site extends from near Mr. Thurman's to a point south and west of John Edlefesen's and not in the same block to mine with street extended. That no part of any proposed park is in front of my place and that the one tendered by Mr. Stearns, which embraces the Allen tract and some of his, is the only one where some birds or animals could be kept for benefit of the children.

There is as much or more level land in the Jaeger or Caple tracts, besides the tender embraces a road way to the dry docks for the benefit of the laboring men of the city, who now have to pass over private property on their way to labor. I wonder if the laboring men of St. Johns are to receive no consideration whatever in this park location question.

When the Panama Canal is completed six times as many ships will pass up the river as now and that will mean six times as much labor at the dry docks as now, provided the same are opened up, and that would mean home employment, home work, and increased home industry.

Give us a public meeting so the truth may become general. D. C. Lewis.
