It is a CRESCENT Made In ST. JOHNS

We have only to show the Crescent to sell it. Scientific construction produces most heat with least amount of fuel. Tripple walls are formed by an underlining of asbestos boards and steel plates, strongly riveted. This saves the heat, and adds to the durability.

Look at the picture, it's a Crescent—note plain nickel trimming, warming closet, warming shelves, large oven, shallow fire box, side draft. Body of Wells-ville Polished Steel.

You should have one in your home. We'll take your old stove or range as part payment.

It is said that if men who are addicted to the use and abuse of chewing tobacco would desist from taking a "chaw" an hour, or even a half hour before and after meals they would find the weed less injurious to the digestion, nerves and appetite. Their wives would probably recommend increasing the abstinence time to four hours before and after, but then they never used tobacco.

The members of the graduating class of the St. Johns School, consisting of 12 pupils, have been presented with their diplomas by City Superintendent C. H. Boyd. This makes a total of 80 graduates in two years. As customary, the members of the graduating class organized themselves into a social club and during the Winter have enjoyed many social affairs, accompanied by their teacher, M. F. Burghdoff. The final meeting was a theatre party. The members of the class are: The Misses Case, French, Hodgins, Letson, Marcy, Moe, Nelson, Stark and Wilson, and Masters Willeford, Moxon and Jayne.—Telegram.

Thursday evening, February 12th, the Modern Woodmen of St. Johns held their scheduled Kangaroo Court trial. The prisoner, Crompton, was charged with stealing his own duck. Of course the prosecuting attorney had a clear case, but because of the accused being such a handsome and winsome man, the suffragette jury found him not guilty, whereupon he preferred a counter charge, in which the same jury upheld him, a verdict of guilty against Neighbor Chadwick being the result. This led to a sentence from the bench, which the sheriff, Corbett, was unable to enforce, thereby causing unbounded merriment. State Deputy J. W. Simmons was present and gave the sheriff a scolding for failing to perform his duty.

After the merry making had subsided the 100 or better in attendance were treated to refreshments, after which the departing guests and members decided they could not have possibly enjoyed a better time. A similar entertainment will be announced later.

RESOLUTION

It is resolved by the City of St. Johns, Oregon: That it deems it expedient and necessary to improve Mohawk street from the northerly line of Central Ave., to the southerly line of Fessenden street in the city of St. Johns in the following manner, to wit:

By grading said portion of street to grade or sub-grade to be established, and by laying a six foot cement sidewalk and by constructing a twelve-foot cement curb on both sides of said street, with cement cross-walks, iron gutters. Work to be done according to the plans and specifications of the city engineer on file in the office of the city recorder relative thereto, which said plans and specifications and estimates are satisfactory and are hereby approved. Said improvements to be made in accordance with the charter and ordinances of the city of St. Johns, and under the supervision and direction of the city engineer.

That the cost of said improvement to be assessed on a pro rata basis as provided by city charter upon the property especially and particularly benefited thereby, and which is hereby declared to be all of lots parts of lots, blocks and parcels of land between the termini of such improvements abutting upon, adjacent or proximate to said street from the marginal lines of said street back to the center of the block or blocks or tracts of land abutting thereon or proximate thereto.

That all the property included in said improvement district aforesaid is hereby declared to be Local Improvement district No. 108.

That the city engineer's assessment of the probable total cost of said improvement of said street is \$5,031.57. That the cost of said street be assessed against the property in said local assessment district as provided by the charter of the city of St. Johns.

Adopted by the council this 17th day of February, 1914.

F. A. RICE,

Recorder.
