Since the dawn of civilization "lime" has been used as a bindthat we were in the shoe business. Mr. Juhnke is a first class shoe man and understands his business thoroughly, and will no loubt prove his worth to the people of St. Johns. Again I thank you. John C. Brooks.

S. We need you. There will be a special program by S. S. Sunday at 2:30 p. m. At this service the scholars shall open their "Pig Banks," which were given them some time ago. All are invited to this service.—Reporter.

EVAUGETICAL UNICA

"lime" has been used as a bindary at 2:30 p. m. At this service in building construction; in fact, as long as man contented himself with simple structures work in St. Johns by the Evangelical church. Our annual conference convenes April first at ference convenes April first at der. With the rise of the Ro-Dallas, Oregon. The paster man empire, the want for a binleaves Monday morning, intending to visit his parents at Stayton on his way to conference.

Sunday services will be at the pressity for such material soon necessity for such material soon

produced it.
The Romans found that by slaked lime with one part of the volcanic ash from Mt. Vesuvius a cement resulted which would public buildings were construct-

Up to the end of the eighteenth century it served all the needs of man as a cement. In 1795 John Sheaton, an Englishman, was entrusted with the building of the Eddystone lighthouse. He cast about to find a local material to displace the expensive puzzolane. He found that by burning a certain chalk and grinding it to a powder he adv. obtained a cement that set up Fifth Room.

For the week ending March 20th, Christina Toole and Kenneth Catto of the 5th grade had the most stars and in the called Roman center, and with it he built the Eddystone light. This Roman center was stars and in the called Roman center and in the called Roman center
