

STATE PRESS COMMENT

On Candidacy of C. N. McArthur for Congress

Clifton N. McArthur, who made such an excellent record as Speaker of the House at the last legislative session, is a candidate for Congress in the Third District with a good chance of being the next Congressional representative from Portland.

Those who have been closely associated with Mr. McArthur know him to be a man absolutely fair and square in all his dealings, political or otherwise. The fact that he has filled the chair of Speaker of the Oregon Legislature for two terms and come out stronger and more highly respected each time, is proof that he is a man whom the people can trust in the conduct of their business.

Mr. McArthur is a young man, he is recognized as one of the ablest men of public affairs in the state. He has occupied positions of trust and responsibility with credit to the state and honor to himself.

McArthur has a good idea of affairs in the state, is honest in his intention, capable of making a Congressman of worth to the district and to the nation.

Clifton N. McArthur, twice Speaker of the Oregon House of Representatives, and one of the cleanest and ablest young men in his native state, has announced himself a candidate for the Republican nomination for Congressman in the Portland district.

Polk county takes more than a casual interest in the announcement that C. N. McArthur is a candidate for Congress to succeed A. W. Lafferty. While Polk will not get to cast a vote for the owner of the Nesmith farm at Rickreall, yet Polk will aid by boosting a little now and then.

Mr. McArthur has a good record in the Oregon Legislature. He comes from a fine line of people. He is a graduate of the University of Oregon and a bright, progressive young man with a very wide circle of personal friends throughout the state.

T. J. Kreuder's popular campaign for county commissioner, as one of the two who are to be elected this year, is putting him in the front rank of all the candidates for that office. Two years ago, when but one was to be elected he was beaten by only a few hundred votes, and at that time he had the court house contingent against him.

WHY NOT SHOP EARLY

The best time to shop is before noon, you are then fresh from your night's rest, your decisions can be made with a restful mind and you are better satisfied with your purchase because of it's being made under a restful condition of mind.

Then, too, the sales people are all human; they can serve you better; give you more readily of the best there is in them when they are approached with a rested mind and body.

It is only habit to shop on Saturday or late in the Afternoon. The time is coming when sales people will demand an eight hour date; they should have it; one reason why they do not have it is simply because of the habit of the public to postpone shopping till the last minute.

The law now requires that the women shall not work after 8 P. M. We are glad of that law but the public must be considerate of us if it would get the best of service.

Service with a smile is the kind worth while. Who can smile a natural smile when she has been on her feet from 8:30 or 9:00 a. m. to 8. p. m.

The world is moving toward a service of cooperation in all lines. Keep pace with times and lend us your help in giving you, our employees and ourselves the best there is in us: the freshness of the morning.
