The improvement of Mohawk was accepted by the council.

An ordinance providing the street and the city dock was passed, there being no remonstrances filed against such improvement.

An ordinance relative to the installation of meters by the water company was also passed Engineer Burson stated that some steps should be taken toward improving Bradford street, but action was delayed until later.

Scene of Activity

In and around the dry dock is presented a scene of activity that is most pleasing. South of the dock is to be seen two dredges and a pile driver busily at work preparing the way for the new plant of the Western Cooperage Company by dredging out a channel and driving piling for the trestle work. At the dock on Tuesday were the stern wheeler Pronto and the three masted schooner Hugh Hogan, both undergoing extensive repairs, and ing the repairs, and the machine shop had a full force of men at work. It is an interesting sight to witness the activity there.
