Carl Nelson has made quite a record with his chickens in the way of meeting with great success in furnishing eggs for hatching purposes. His chickens consist of Barred Rocks and White Wyandotts. Out of 25 settings of eggs, totalling 376, chickens were hatched out of the shell to the number of 308, or an average of about 82 per cent. As a 70 per cent average is considered good, this showing is remarkable. In one instance fifteen chicks were hatched from fifteen eggs.

 It is proposed by the Salem Commercial Club that the commercial bodies of the state charter a steamer next Summer to transport the various booster organizations to the Panama-Pacific Exposition, the vessel to be used as a hotel, or club room, during the stay in San Francisco, and to be so decorated with banners and electric signs as to be a floating advertisement of Oregon.

Edward M. Childs and W. H. Ewin, two young men of Portland, were drowned in Columbia Slough Sunday morning by the capsizing of a shell row boat. Sun shields riveted to the beak of a cap and so hinged that they are instantaneously adjustable is the latest device designed to protect the eyes of the ball player from the blinding rays of the sun. When a ball is batted for a long drive, the fielder touches his cap and the glasses fall into position before his eyes, allowing him to see the rapidly approaching ball while looking directly at the sun. When not in actual use the arrangement may be folded up out of the line of vision.—From the August Popular Mechanics Magazine.

Institute a Success

Tuesday, July 21st, was institute day for the Sunday Schools of St. Johns and Linnnton. The sessions were held in the First Baptist church and all the sessions were well attended and every moment proved to be interesting and helpful.
 Rev. Mr. Thomas of the Congregational church had charge of the devotional service at the morning session. Mrs. Cook presided and called for the reports of the various schools of the district. Many splendid reports were given showing that all the schools are making progress.
 Mr. Borden of the Baptist church addressed the Institute on the "Value of Object Teaching." This address was illustrated with magical and mechanical effects, which held the audience with rapt attention throughout. At the close of his address as Mr. Borden drew out a large American flag from a secret box the whole audience rose to their feet and saluted the national emblem.
 Lunch was served in the basement to about eighty persons.
 At 2 p. m. Mr. Ingalls of the M. E. Church, opened the meeting with a devotional service. Then Mrs. Ormsby, state superintendent of secondary classes, gave an address on "Building Up the Secondary Classes." Many helps were gained from this address.
 This address was followed by a contralto solo, "My Faith in Thee," by Mrs. Hudson.
 Miss Alice Clark, state superintendent of Primary Work, spoke most helpfully on "Primary Helps." Many of the workers spoke on helps in Sunday School work.
 An orchestra under the direction of Mr. Churchill furnished good music at the evening session. Miss Alice Brown sang, "Oh, the Gardens of June."
 Chas. A. Phipps, state superintendent of Teacher Training Work, addressed the Institute on "The Organized Bible Class." This was followed by an address, "Workers' Meetings in Graded Schools," by Dr. Else, president of Multnomah County Sunday School Association. After appropriate remarks by Mr. Keeler and music by the orchestra, Mr. Borden pronounced the benediction, closing a most helpful and interesting Institute. —Reporter.
