All the leading papers of the East are teeming with tidings of better times and better conditions. A wonderful develop ment seems to have started in the Eastern states and labor i very much in demand. It i only a question of a month or six weeks until the wave of pros-perity reaches the Northwest

The city council did a good act when they let the contract for the improvement of Richmond street between Edison street and the river Tuesday night. This improvement will prove most beneficial to the industrial plants located in that section of the city, which are surely deserving of much consideration.

Dr. Edgar Parker, better known as "Painless Parker," is having an uphill fight on his hands in breaking into the good graces of the dental fraternity. His greatest "crime" seems to be his propensity of using printers' ink freely. Now if other professional men would suddenly develop a like propensity, we believe the fraternity could still keep its dignity and do a better business at the same time. It is time that profesional men broke away from the old moss covered idea that advertising their business and methods is undignified. 1838, seventy-six years ago, very ill, but is improving In Parker's case there seems to Daniel Webster, in a speech in rapidly. be none who will say that his Congress said: methods are not painless, as he ndvertises them to be.

carpet tacks. They are good sports in every way: they cough up money every day to make the town a better to produce important and some carpet tacks. They are good sports in every way: they cough up money every day to make the town a better to produce important and some carpet tacks. They are good sports in every way: they cough up money every day to make the town a better to produce important and some carpet tacks. They are good some carpet tacks, they are good some carpet tacks. They are good some carpet tacks, they are good some carpet tacks. They are good some carpet tacks, they are good some carpet tacks. opinion seems to favor the sale government. There is nothing class of Sunday school girls, of the dock, rather than its new under the sun.—Goodwin's gave a lawn social to their teachlease, especially if it could be Weekly. sold to a large manufacturing concern. Few people believe that it would be possible to lease at a figure that would even take care of the interest, insurance and depreciation, to say nothing of realizing anything on the investment. From a sentimental standpoint a municipal dock of object lesson at the Sunday the magnitude of the Philadelphia street dock may be all right, but from a practical and remunerative standpoint it seems to be an utter failure. At least Mrs. Wright president. St. Johns. Now, while the increase in land value would no doubt fully reimburse the city for all expenses incurred, and the proceeds of same be of some benefit to the people who have borne the expense, would apparently be a good time to sell, before further depreciation takes place in the building. and further money is paid out in interest, etc. The question has been raised, what shall be done with the proceeds of such trating warships, and is feversale? The money could be applied to purchasing the water tria is in the very act of invadplant, or part of it used in erecting Servia, and Servia is as ing a smaller dock at Richmond street, running it straight out Germany is hurrying troops to into the water. Or it might be the Russian frontier; Russia is turned into the general fund, mobilizing fourteen army corps and reduce taxation to a considerable degree for some time France is throwing regiments to come. The greatest relief of the sale would be to be relieved Great Britain is hurrying supof the burden of paying interest and other expenditures incidental with keeping the dock.

Good bye! Good bye to work and worry for a while. They worked and saved, and put their money in the bank, and now they are off on a trip to enjoy SOME of the money they put away in the bank. They NEVER MISSED the foolish little things they went without to BANK that money.
