Williams will keep his office open until 8 o'clock every evening until the books close. The European war situation, in the opinion of military experts, both in this country and in such of those of Europe whose opinions have escaped the severe censorship, indicate that the involved powers are likely to be in a prolonged death struggle. The theory of a short and decisive war seems now to be abandoned, and unless conditions materially change the experts say the contest will be prolonged, but none hazards a guess as to how long.

Wheat exportation last week was three and one-quarter million bushels in excess of that of the same week last year. Price continues steady. Foreign exchange declined last week and general foreign export trade shows a betterment. Bank clearings contracted somewhat, but the weekly movement of cash was more liberal and pronounced. Dunn's Review for the last week shows that while business generally is abnormal, due to the war conditions, yet there is a significant growth of confidence.

Persons expecting to see scandal of a disreputable nature aired in the columns of the Review will be disappointed. There are some papers that make a specialty of scandalous rumors and reports, but not so the Review. Sensational news travel all too quickly without the aid of a newspaper. Some readers are gratified to read of such occurrences, but it is better to forget scandal as quickly as possible than to advertise it.

A fire drill test was conducted by Chief of the Fire Department Lee Cormany and Fireman Mackey at the Central school Tuesday. This was the first test undertaken and the pupils were unaware that it was to be undertaken. In spite of this fact the pupils numbering about 450 cleared the building in one minute and thirty-seven seconds, according to time kept by Jeweler Tower. This is a remarkable showing, and reflects great credit upon the instructors in having the pupils so perfectly drilled. Other tests will be made later.

A number of St. Johns people report a very pleasant evening spent with the I. O. O. F. at the opening of their card parties at University Park Saturday evening, October 3. It was the first of a series of sixteen parties to be given during the winter. Prizes are given for the highest scores each evening, and also a grand prize at the end of the series. The high lady's score for the evening was made by Mrs. O. E. Schupp, 2810; the gentleman's prize was won by Mr. O. E. Schupp, 3000. An unusual occurrence where husband and wife win both prizes in an evening's playing. The next party will be held on Oct. 17th. All invited.

While the delay in passing the Rivers and Harbors Bill has, to some considerable extent, delayed work on the Celilo Canal, a small force of men has been kept at work throughout the summer and the engineer in charge estimates that if the necessary appropriation is made in the near future, which now seems probable, the canal can easily be completed within the next six months. He estimates that but \$25,000 will be necessary to complete the big water way. The lock gates of the canal are being put in place and work on the locks will probably be completed by the end of October. A small amount of concrete is yet to be placed, and a small amount of dredging at the eastern end, where the canal connects with the river, will bring the work to a point where the water may be turned into the ditch for the purpose of testing the locks. It is confidently expected that by the opening of navigation next spring the canal will be ready to receive river steamers of ordinary draft.

A Pleasant Surprise

A most enjoyable surprise party was given in honor of Mrs. H. S. Hewitt at the home of Mrs. Tillie Hill on North Jersey street Wednesday evening. About forty friends were present and enjoyed the event immensely. Games of various sorts were indulged in, and pleasing recitations were made by George Downey and Mrs. Keeler and Mrs. Hill, after which refreshments were served and a good social time enjoyed. Mrs. Hewitt is visiting here from Bar View, and her hosts of friends were glad to see her once more. While she likes Bar View, yet she still has a strong liking for St. Johns, where she lived for a number of years.

Those present were Mr. and Mrs. Seales, Mr. and Mrs. Hill, Mr. and Mrs. Markle, Mr. and Mrs. Boyd, Mr. and Mrs. Gammell, Mr. and Mrs. Evens, Dr. and Mrs. Rambo, Mr. and Mrs. C. Hewitt, Mr. and Mrs. Keeler, Mr. and Mrs. Downey, Mr. and Mrs. Chaney, Mr. and Mrs. Hiller, Mr. and Mrs. Haines, Mr. and Mrs. Benham, Mesdames Hewitt, Robinson, Hill, Fones, Learned, Day, Aiken, Cope, Perrine, Hess, and Miss Laura Robinson and Miss Hanson.

Chief of the Fire Department, Lee Cormany, in company with C. S. Currin, James Melon and D. C. Hoogerhyde, were taking a trip around the city in order that the chief might familiarize himself with operating the machine Tuesday afternoon in the fire auto truck, and as they were negotiating the turn to go on Fessenden street from Jersey street the truck skidded against the curb and was overturned. Mr. Hoogerhyde sustained cuts and bruises on the legs and was taken to a Portland hospital for treatment. The others fortunately escaped without injury. The truck was damaged to a slight extent. The machine was running at a low rate of speed at the time.
