Councilman G. L. Perrine's scheme of constructing a underground comfort station for men and women, which he unfolded at the session of the city council Tuesday evening, is a most admirable one, and will undoubtedly receive the united support of every citizen in St. Johns. His idea is to have it constructed at the edge of the city hall plot near the fountain and patterned somewhat after the comfort station on Sixth street, Portland. The need of such rooms have long been apparent, and it is hoped that Mr. Perrine, with the aid of the council, will lose no time in carrying this most worthy project to completion.

Recorder Dunsmore has received several congratulatory letters from prominent citizens in Portland, in which they commended the good judgment of the St. Johns people in re-electing him to the office, which he has been conducting so satisfactorily to all concerned.

Harry H. Rawson, son of Ed. Rawson, the inventor, has accepted the position of foreman in the machine shop of the Washington Machinery company at Spokane. He has been employed the past year in shop of the Peninsula Iron Works. At St. Johns Congregational Church Rev. D. T. Thomas, the pastor, Sunday pointed out that good roads were indication of material and moral progress, and declared it the duty of every citizen to go to the polls and vote for good roads. Rev. Mr. Thomas discussed at length the economical value of good roads to the farmer, which he pointed out could not be overestimated. He urged that the slovenly methods of road construction in this country should cease, because of the tremendous economic waste.

Residents of Linnton and points adjacent may own their own carline to Portland if a petition presented to the County Commissioners is granted. The petition asks for a 25 year franchise for a road to take the place of the United Railways line, which ceased operations April 1. The petition is signed by O. M. Clark, Richard Shepard and J. B. Holbrook. The new road, which must be completed and in operation one year after the adoption of the proposed franchise, will be constructed at a cost of approximately \$100,000 and will run to the northerly limits of Linnton. Construction must begin within six months. A five cent fare will be charged.

The censorship ordinance was sustained at the election last week, and therefore will be in force until this city is absorbed by Portland, when it will give way for the rules of censorship governing that city. It is said that a number voted to sustain the ordinance when they really intended to vote for its repeal—yes meaning that it should be repealed and "no" that it should not be repealed. Likewise some may have voted to repeal it when they really intended to vote for sustaining it. However, imperfect as it is, it must remain without alteration until merger takes place or is repealed by a vote of the people, the council being powerless to alter it in any manner whatsoever.
