The home of Bert Olin on Olympia street between Charleston and John streets was partially destroyed by fire Sunday shortly after the noon hour. The fire is believed to have originated from the flue. The loss is estimated at about \$500. The fire department with their usual alacrity was speedily on the scene and allayed the flames.

The local fire department was called to Portsmouth at about 10:40 Monday night to quench the flames at the home of A. P. Gerrard. They made splendid time in reaching there and quickly extinguished the fire before much damage had been done. Mr. Gerrard was profuse in his admiration of the quick work of the firemen. A defective flue is said to have been the cause of the conflagration.

For the balance of the month of July the subscription price of the Review will be reduced to 75 cents per year. This reduction is made owing to the dull times. A number of people want to take the paper, but really have not the money to spare. So the price will be reduced until August 1st to fifty cents per year. Old subscribers may also secure advantage of this rate by paying up arrears, but the rate will not apply on out of town subscriptions.

John W. Baker, who has been making his home in the Learned building at the corner of Richmond and Jersey streets, died on Monday morning of cancer of the stomach. He was aged 63 years, and had resided in St. Johns for the past eight or nine years. He is survived by one daughter aged about 13 years. The funeral took place from the Evangelical church Wednesday afternoon, the St. Johns Undertaking Company having charge of the remains. Interment in Columbia cemetery.

The Oregon State Grange, recently in session at Tillamook, adopted resolution in favor of the one body legislature. The type of law-making bodies of which the Grangers approve would consist of fifteen members in session continuously. Whether the Granger's idea of a fifteen man house working the year round will meet with general favor is extremely doubtful. But a proposition to have six weeks repealing all the surplus laws it could, would probably carry with a large popular vote.—Ontario Democrat.

The big parade and picnic at University Park last Monday was a great success, and numerous people of St. Johns took advantage of the occasion to attend. All had a splendid time and were well treated by their Peninsula brethren.

Whether Recorder Dunsmore, Attorney Geeslin, Treasurer Mrs. Shaw, and School Clerk Tanch are retained in service or not, it is possible that they will draw pay for the balance of the term for which they were elected. They were elected for a year and are under bonds for a year, so it would seem that they are entitled to serve out their term in some capacity at the salary stipulated by the city of St. Johns.

It is up to the people of the Peninsula to patronize the business houses of the Peninsula. Only in this way can we expect to have larger business houses and more prosperity. Do not go to the big Portland houses for anything you can get here. The more business that is transacted on the Peninsula, the more valuable will become your property. Help yourselves by patronizing your home merchants. The merchants should also advertise as generously as possible in order to let the public know that their wants may be supplied.

Bigelow Should Wipe Up

Will Portland absorb the Linnton and St. Johns police and fire protection forces along with the towns themselves?

A petition to provide places in the Portland departments for St. Johns policemen and fire men, referred by the city council to the civil service board, was returned to the council this morning by Commissioner Caldwell of the board.

"We have no way of taking these men into the city's employ," said Mr. Caldwell, "unless they take the examinations, are placed on the eligible list and enter the service in the regular way."

The petition was signed generally by the citizens of St. Johns. A similar petition has been received by the county commissioners from Linnton, and will probably be sent to the city council.

The council deferred action until after Friday, when its members, with bureau chiefs, will visit Linnton and St. Johns to investigate details of the absorption of the cities.

The request of the people of St. Johns and Linnton that surveys be made and grades established in their towns was deferred by the city council this morning, pending an investigation of the finances of the two towns, soon to become parts of the city of Portland.

Commissioner Dieck said that \$8350 is necessary for the work, and asked that the council say yes or no if it would do the work.

"I am opposed to it if they haven't the money to pay for it themselves," said Commissioner Bigelow, adding that he was in favor of shutting off public service to these towns if they did not pay for it.

"But the people of Portland voted to take them in," said Commissioner Baker.

"Yes," said Mr. Bigelow, "but they didn't vote to take their debts."

Action was deferred on Commissioner Dieck's request for a definite answer until after the council makes an investigation of the financial affairs of the two towns.—Wednesday's Journal.
