

## High School Happenings

On Saturday night the Senior class will entertain in honor of the foot ball team, invitations being issued to the first and second squads and their coach and to the yell leader. A report of the evening will appear next week.

Friday of this week is to witness the third game of league football played by James John this season. It will be the hardest game thus far, but we are hoping much. The whole school is back of the team, proud of their game and their wholesome spirit.

On Thursday the Civics class was addressed by W. L. Brewster, of Portland. He gave them a clear exposition of the commission form of government, explaining also the criticisms brought against the preceding form of the city's government and the reasons for the change.

The Philathenaeum gave a most successful first program for the year on Tuesday afternoon. The playlet, "The Burglar Alarm," was cleverly presented by a number of girls in the following roles: Mrs. Jones, Genevieve Brown; Amanda, Helen Story; Dinah, Etta Patterson; Henry Smith, Idrya Weimer; Mr. Jones, Gwladys Keeney. Musical numbers were furnished by Erma and Esma Griswald and Virginia Dunsmore and Margery Moxon.

On Friday evening the semi-annual reception to the entering class and their parents will be given. A program is under way of preparation, consisting of a pantomime farce of Young Lochinvar, and music. Those in the cast for the pantomime are Lochinvar, Hugh Whisler; The Bride, Alice Brown; The Groom, Stanley O'Connor; The Mother, Jennie McVey; The Father, Merritt Whitmore; Bridesmaids, Genevieve Brown and Ella Reis. Percy Johnston will play a violin solo. In addition to these numbers will be ear-toning by Denby Coon, a reading by Margaret Nelson and music by a mixed quartet.

The Sodalitas Latina held its first regular meeting of the year on Saturday evening, October 13. The vocabulary contest was won by Alice Gilstrap, of the Latin class; Sibel Bugbee Latin 3, and George Walker Latin 4, were awarded second and third place respectively. The business session was characterized by lively discussion as to a proposed new requirement for membership, and as to a method by which more of the club members may have a chance to earn an honor point; both questions were referred to committees appointed by the presiding consul, Willis Vinson. The program consisted of two numbers represented by groups of members in charge of Ella Reis and of Charles Trumbull. The former's squad gave a burlesque representation of the story of Theseus. The audience was particularly delighted with the stormy farewell of the king, Merritt Whitmore, to his wife, Ella Reis, and with John Wulf in the character of the baby Theseus. Charles Trumbull's group offered a realistic imitation of the rehearsal of a Latin play, "Medicus," wherein the characters talked a strange combination of Latin and English. These are the first two competitors in the program contest among eight groups comprising the whole membership of the club, exclusive of the officers. Two numbers in this contest are to be given at each meeting this term and after the January meeting the Executive Board will select the winner of the contest.

## Settled by Arbitration

The finding of the arbitration board, in the controversy between the Portland Railway Light & Power Company and its employees became operative Monday morning, awarding the eight hour day and an increased wage schedule approximating an advance of 20 cents per day. Under the increased wage schedule, carmen in service less than one year will receive 38 cents an hour; more than one year and less than two years, 40 cents an hour; more than two years, 45 cents an hour. Time and a half will be paid for overtime beyond eight and one-half hours. There was no overtime provision in the old schedule, and the wage ranged from 28 to 34 cents.

Whether or not the adoption of the eight hour schedule will necessitate the employment of more men, has not yet been indicated by the company.

Domestic help in St. Johns is almost impossible to secure, most of those who formerly served as housemaids now being employed in the mills and factories.

Electric Vacuum Cleaner for rent.—H. F. Clark.

SOUTHERN MANUFACTURERS CLUB, CHARLOTTE, N. C.

## CHARLOTTE'S ATTITUDE TOWARD THE SOLDIERS

**Awaits The Coming Of Troops From The Western States With Open Arms**

**WELCOMES FRIENDS AND RELATIVES ALSO**

**Good Old Southern Hospitality Awaits Westerners in Charlotte, Where Every Available Accommodation is Being Planned By Citizens.**

Charlotte awaits the coming of the troops from the Western States with open arms and their friends and relatives as well. Their homes will be thrown open to them. The Southern hospitality which is somewhat notably known throughout the nation will be plentifully exercised toward these soldiers who spend a little while here before going into the arduous and dangerous labors of the trenches. The people of Charlotte are planning now to put within reach of the troops every available accommodation. Public drinking fountains are being installed, rest and comfort rooms in the hotels, restaurants, church basements, public buildings and empty store rooms will be provided and the soldiers will have an opportunity from time to time to take a meal in the homes of the leading citizens of the community. They will be made to feel that they have not "fallen among thieves" but among their friends.

In addition to what is being done for them by the commission for training camp activities, this commission has for its business chiefly the entertainment and comfort of the men, the provision of attractive entertainments, etc., but the Young Men's Christian Association will extend its beneficent influence toward making the stay of the men here pleasant and profitable. And in addition to all of these organized agencies, the individual citizens of Charlotte will hold back from the visiting guardsmen nothing that will tend to give them a taste of Southern hospitality and feel the warmth and cordiality of the welcome generally felt for them into this community, for a time to be their home.

Charlotte Socially and Religiously. Charlotte is recognized as one of the most religious cities in the world. This broad statement is substantiated by the records which show that a greater proportion of the adult population of the community attends divine worship than in any other city in this country and only one in the world exceeds it, that being Edinburgh, Scotland. The Christian charity of the city is notable. It shows itself in ample support given to those organizations having for their purpose the physical and moral and spiritual uplift of the people. It maintains a number of splendid hospitals, the most recent acquisition in

this line being the conversion of the plant of the former Elizabeth College into a Presbyterian Hospital, the sum of \$250,000 being applied to the purchase of this property which lies in a wooded area of 20 acres on the outskirts of the city.

Educationally, Charlotte is not slothful. Its public school registration numbers over 7,000 pupils and in addition there are numerous private schools for the training of the young. Horner's Military Academy is one of the chief of these, being one of the oldest and most widely recognized in the State. Charlotte is the home of Queens College, the largest and finest-equipped institution maintained by the Southern Presbyterian church of the South.

Records on file in the United States census bureau offices at Washington indicate that a higher percentage of the people of Charlotte own the homes they occupy than in any other city of the nation. The chief reason, perhaps, for this condition is that there is a far less proportion of alien-born population in this community than in any other section of the South. Less than one-half of one per cent of the total population of Charlotte is foreign-born. The other reason is the presence here of successful and ably-managed building and loan associations, four of them through which thousands of residents are paying weekly or monthly for the houses in which they are living.

Within latter years Charlotte has made tremendous strides as a jobbing center. The reason of its geographical location, being equidistant from the sandhills and the mountain regions of the State and the central point in the two Carolinas accounts for the rapid growth of this business. The element of transportation has not been the least of the conducive reasons that Charlotte has maintained such a uniform growth in this direction. It is at present the extreme southern city to which from the main headquarters in Washington a double track system prevails on the Southern Railroad, the leading Southern transportation system.

Charlotte boasts the finest suburban developments of any city in the Carolinas. The launching of Myra Park, formerly an open area of 2,000 acres immediately adjacent to the city limits, financed by millionaires and converted into a residential section of surpassing beauty, has added chiefly in giving this city the name and distinction of being a distinctive residential city and one, too, of elegant dwellings. On every side of the city proper, large suburban developments have sprung up within the last ten years and the drift of population is away from the congested centers which are rapidly yielding to the centrifugal influences of a commercial growth, making it necessary for the residences to push themselves toward the outskirts of the city.

Industrially, Charlotte ranks above any of its competitors in the Carolinas both for the variety and the magnitude of its commercial enterprises.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; this case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure, sold by Druggists, etc.
