

## MAY WE OFFER A SUGGESTION?

If you are away from home, parents and other relatives we believe a good long letter will be the gift most welcome and most practical. Fill the letter with good will, with happy recollections and with bright anticipations.

The next in keeping with the times might be something useful, wearable, readable or practical.

The stores in your locality are better stocked than ever before.

Of course as we pay for this space we are privileged to say most of our own store.

Your patronage does not necessarily mean a high priced automobile for the owners.

It simply means the building of a business in your locality of which you as well as the owners may be proud.

It means that we can give more help to the things that go to make up the satisfied life: Aid to the churches, schools, and the war activities. It means that a larger business will pay more taxes that the public may be benefited. It means that your boy or your girl might have a business training minus the lure of the city.

### A good Christmas Resolution: Resolve to be more loyal to your community

Give us your Christmas business this year and next year we will give you a still larger stock from which to choose.

For your small boy or girl give him the thing that makes him happy.
