"Correspondence reaching this office indicates that persons have been erroneously advised that Liberty Loan Bonds will be accepted in payment of taxes due the United States. Houses are hard to find by people who would live in St. Johns if they could. Building material is high, but why not start a tent city? It would just take lumber for floors and four foot walls, which would serve well as the weather will soon be good. Now there are some good places here that would look better as a tent colony, and also help our community in other ways. As we know, of all the workers at the local shipyards, many would live here if they could find a place. Why not make them a place?—Citizen.
