Our Political News Letter

By F. J. Kupfer.

It is conceded by apt students of the political history of the state that in the final analysis, the candidate receiving the largest number of votes on the east side will be nominated. The east side as a rule polls sixty-five per cent of the vote of the city and no matter whether the candidate has a majority on the west side, it will invariably be submerged by the votes on east side, and in many instances by overwhelming majorities. Hence it is up to the candidates to make the greatest efforts in the way of publicity in coverng that territory. A word to he wise is sufficient.

D. C. Lewis, father of St. Johns' baptism into Heavenly Portland, and also law-maker Frank A. Rice Announces and law repairer, when wanting to illustrate a certain point, will invariably and possibly un-consciously, intertwine in his remarks something like this: "For instance, now if you see it from the right angle, it's all right, but if you see it from the left angle, it's all wrong."
Now if you see him from the cations that go to make an adleft angle, how can you see him cations that go to make an ad-from the right angle? And at mirable member of the Legisthat, he may be right.

When a man is born in a important body was made up community and continuously resides there until he reaches midability and sterling qualities dle life, it is the people of that community who are best inform- off, and much better laws than ed as to his character and fit- now in force would be on the ness when he announces him-self as a candidate for public office.
