Ranges on Easy Terms

The ranges which we are offering here were bought before the government placed such stringent restrictions upon the manufacturers, requiring that all ranges be made lighter in weight, also eliminating certain conveniences. All the ranges which we carry are the sanitary or leg base style, the tops are all ground and polished and do not need to be blacked.

A BOX FROM HOME

Drawn by Oscar Williams, Division of Pictorial Publicity.

Food savings of millions of Americans during our first year of war enabled this government to send enormous food shipments abroad for our fighting forces and the Allied nations. Our savings in cereals—out of a short crop—amounted to 154,900,000 bushels; all of which was shipped to Europe. We increased our meat and fat shipments 844,600,000 pounds. This was America's "box from home" to our army abroad and the civilians and military forces of the Allied nations.

Sept. 1st ends our 13th year in Business in St. Johns

Our 13th year has been the best. Our sales have been the largest ever by a good many thousands of dollars. In this 13th year we have been able to do more for our locality, and for our nation. We will start the 14th year with the largest and best stock we have ever carried. What success we have had we attribute to our policy of selling to our trade just as we should like to be sold to if the circumstances were reversed
