The recently organized women's auxiliary of the Grant Smith-Porter Shipyard club had its first official meeting Wednesday noon in Multnomah hotel. It is proposed that hereafter this organization meet every Wednesday between 10 o'clock in the morning and 4 o'clock in the afternoon in the peacock room. Mrs. Dan McLellan is president of the club; Mrs. J. F. McKenna, secretary; Mrs. Charles Matson is chairman of the following committee on welfare: Mrs. Charles Matson, Mrs. Charles Goodson, Miss Isabelle Smith and Mrs. J. F. McKenna. It is the purpose of this organization to meet with systematic response all emergency cases in need of financial or other assistance. Rendering aid to fellow workers and their families by systematic effort will be productive of more uniform results, club members affirm.

L. N. Bellinger is in receipt of a letter from his son, Willard M. Bellinger, at Tours, France, in which he says: "I went to the Y. M. C. A. this evening with the intention of seeing a show, but after waiting for about an hour, French style, it was announced that there wouldn't be any show. Today I had the pleasure of seeing General Pershing, for he came here today on a tour of inspection. He made a short speech to the men in which he emphasized the importance of the work we were doing in the S. O. S. The French people are just as anxious to see our big men as the American soldiers are. For example, two Frenchmen who had not seen the General came around just as his car was leaving the barracks. These two Frenchmen doubled him, thinking they might catch up with his car and get a look at the General.

Just at present everything looks quite encouraging, for our men are giving the Hun a taste of his own medicine. I don't care how soon the Kaiser has to cross the river Styx into the darkest hole of "hell."

Went for a trolley ride yesterday on a French street car, and as usual something had to go wrong. This time it was the car I was on caught on fire. One of these miniature cars wouldn't hold a good sized family they are a joke to most of us.

### High School Notes

The registration has now reached the mark of 302 and every day sees the induction of from two to half a dozen new students. Just how the new regulations for S. A. T. C. will affect the situation can not yet be determined, for there have been, as yet, no definite rulings sent to the high school principals as to the course to pursue.

The Domestic Science classes are beginning at once in the work of conservation by canning fruit and vegetables. A notice on the bulletin board requests any one who knows of any one who has any fruit or vegetables which is not apt to be used to inform the department, and it will be canned by the girls and used for H. S. cafeteria lunches this winter.

An important meeting of the Student Body was called on Wednesday, specifically for the purpose of considering the football situation. Due to Mr. Strong's going, the boys are without a coach. This is especially regrettable because the prospects for a winning team are good and the boys are eager to continue the sport so well begun. If any one fears that this may interfere with the serious business of school in itself in connection with the war work, a brief survey of the classes at work and attention to the conversations in the halls would soon disabuse their minds of this mistaken idea.

On Thursday morning Mr. Boyer was present for the first assembly singing. The genuine hearty applause with which the students greeted his appearance testified to their love and respect for him. He has done much to imbue the school with an appreciation for the best in music and he secures a response from the school of which any man might be proud.

At the close of the hour Mr. Fletcher announced the good news that Mr. Campbell will coach the boys in football. This keeps the work within the school which is a most desirable thing. Mr. Campbell has been gymnasium director for the past three years.

Richard F. Smith, of Arcadia, Florida, Carlstrom Aviation field, left St. Johns, Ore., a few years ago, and traveled the United States until eight months ago. Then joined the Army as an Airplane machinist and sent to Florida, where he is now stationed. His home is 838 N. Jersey Street and he is the son of F. E. Smith. He says it is awful lonesome down in the Everglades of Florida and would like some one to write to. So if anyone wants to let him know they remember him, his address is Private R. F. Smith, Aero. Squadron 302, Carlstrom Field, Arcadia, Fla. —Friend.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**We have those Beautiful Rugs You'd like to own.**

Dear Mary:—  
I don't see why so many women pay so much attention to the pictures on their walls and so little to the rugs on their floors.  
The beauty of a home begins with its rugs—and ends there if they are not pretty. I'm as proud of my rugs as I am of my pictures. Why, my rugs have become my friends, they give me such a warm welcome whenever I come into the house.
