There will be no service or
Sunday school at the Methodist
church next Sunday morning.
It is Conference Sunday and all
the Methodist churches of the
city join in a great union meet-
ing at the Municipal Auditorium.
An old fashioned "love
feast" will be led by Dr.
Stanfield beginning at 9 a. m.
and Bishop Shepard will preach
at 10:30. Sunday evening at
the Methodist church at 7:30
will be held an Epworth League
rally and rousing Evangelistic
service addressed by several
speakers. This is the closing
service of the church year.
Monday morning Bishop Shep-
ard will read the appointments
assigning to 150 ministers their
field of service for the coming
year.

Although speed records during
September have been hump-
ing in the Grant Smith-Porter
shipyards, there has not been a
single accident among the crews
engaged in the work in which
the records were made. S. A.
Stewart, safety engineer of the
Emergency Fleet corporation,
points to this as an evidence of
the work being done in the ship-
yards in the prevention of ac-
cidents. The Grant Smith-Porter
company in July employed
5225 men and had only 117 in-
juries among them, no injury
involving loss of life or limb.
This is an average of .22 of 1
per cent for the month. In
August 5879 men were employ-
ed in the yard with only 72
accidents, none of which in-
volved loss of life or limb. This
brought the accident average in
August to .12 of one per cent,
nearly half of the July mark.
September, according to Safety
Engineer Stewart, bids fair to
show even better record than
the two preceding months.
Many new improvements are
being installed to safeguard the
men working on the hulls and
installing machinery, and yard
officials are endeavoring to make
this a model in safety organiza-
tion.—Journal.

struction company, cost plus

Another plank in the bridge
of ships that is to spell victory
for allied forces in France was
nailed in place at 7:30 o'clock
Saturday night, when the Fort
Stevens slid down the ways at
the Grant Smith-Porter ship-
yards. She was the third ship
launched there this month, and
the twenty-first put into the
water since the company began
launchings last February. Mrs.
Joseph McKenna, wife of the
yard paymaster, was sponsor
for the Fort Stevens.

The Student's Army Training
Corps students at the Univer-
sity of Oregon, are to be trained
especially for commissions
and for the higher technical posi-
tions. The University at En-
gine is specializing in this one
line of work. The University
will have a staff unusually well
prepared to give the most effec-
tive instruction. The Army is
detailing a strong corps of
officers and non-commissioned
officers. The regular members
of the faculty who give a large
part of their instruction are all
specialists in their field, and
addition have had the benefit
of extensive military experi-
ence, both in the ranks and
as instructors. Five of the
faculty members are just finish-
ing the two months Students
Army Training Corps course
at the Presidio, and a number
of others were instructors in
the officers' training camps at
the University this summer.
Furthermore, S. A. T. C. stu-
dents at the University will
come directly under the instruc-
tion of Colonel John Leader,
whose extensive experience in
many fields, and particularly in
the present war, and whose
gifts as a teacher of military
science, make service under him
exceedingly profitable. The en-
tire machinery for induction in-
to the service is not yet set up
by the War Department, but
will be ready for operation in a
very few days.

KAISER PLANNED TO RULE WORLD AFTER 6 MONTHS WARFARE

Thought Theft of Iron and Coal
From France, Land From
Russia, Would Pay Bill

Planning world trade domination, if
not actual world rule, as the outcome
of a short six-months' campaign in
Europe, Germany now finds herself
outcast from among civilized nations,
her people impoverished, her honor
irrevocably stained by the blood of
Belgium, and facing a future of
fathomless ignominy and disgrace.
"I will make room for my growing
people by taking some more of France
and a few thousand square miles of
Russia," said the Kaiser. "We will
get the iron and coal in Northern
France for manufactures which we
will sell the conquered population of
Russia, and this, besides indemnities,
will more than pay for the war. En-
gland will not dare come in, and our
merchant fleets will soon crowd her
from the world trade routes.
"If the United States does not
acquiesce, her manufacturers will get
no more of our dyes and chemicals,
her farmers no more of our fertil-
izers." And we will also take away
from her all South American com-
merce."

GERMAN GRAVES GRIM ANSWER

Now, across the graves of a mil-
lion of his young men, the Kaiser is
beginning to see the sun set on
the smallest of his ambitions. "Foch will
never cross the Rhine," is now the
German watchword. German cities,
shrieking beneath the visitation of
allied and American airplane bombers
cry out: "No more of this barbarity."
Such cries are echoed in the ghostly
halls of thousands of Gotha and
Zeppelin victims in London and Paris.
The Rhine will be crossed, and
Cologne and Berlin will witness be-
neath the shells of Allied guns.
"Five million men in France," cries
America. "Remember Belgium and
end the war in 1913."

To America and her five million
fighting men in France will come the
greater glory of the world war. But
that end will not be achieved with-
out the sacrifice of thousands of
these men, nor without the most
earnest and united support of those
of us at home. Where we have given
valiant efforts to war work hereto-
fore, we must thrust our shoulders
desperately against the wheel of war
preparations from now on. To do
no one person or class is it given to do
a greater share in this war than any
other person or class. Each must
go to his utmost.

WEIGHT RESTS ON AMERICAN FARMER

Upon no one class rests a greater
responsibility than upon the Amer-
ican farmer, who with his wives and
sons and daughters constitutes one-
third of our population. He has the
first and greatest responsibility of pro-
viding food for the nation at home,
food for the fighting men abroad,
and food for our allies in the battle line
and their civilian population.

England, with millions of acres of
parks and hunting grounds converted
into farms can only raise crops to
feed her people half the year. France,
with every man in uniform, and
nearly half her fields overrun by
armies, does even less.

With her grain fields extended by
millions of acres of new land, Amer-
ica is responding to the call and allied
hunger will never be an ally to Ger-
many. Billions of dollars of Amer-
ica's huge war loans are coming back
to the farmer in payment for his
grain and stock.

The farmer, for his future honor
and standing in the nation, must see
that every penny of this sum he can
spare is reinvested in war loans.
The Fourth Liberty Loan, now upon
its call for but a portion of what
America must spend in war efforts in
the next few months. It must be sub-
scribed promptly and overwhelmingly.
That "the man who is not for us is
against us" is as true now as when
it was written centuries ago.

IF YOU buy a fifty dollar bond
when you COULD BUY a five hun-
dred dollar bond, you are not doing
your full duty as an American.

FURNITURE
POLISH

Dear Mary:—
When I went over to see Mamie yesterday I found her
in tears. She had been trying to polish her old furniture.
She has company coming but Jack won't give her the new
things she so badly needs for her new home.

I just told Mamie to ask Jack how he would like to go
among his friends with a shiney, old patched-up suit of
clothes. This will make him think. My husband is so
good to me that I feel sorry for Mamie. But maybe Jack
will "come thru." Always affectionately—HELEN.

P. S. I told Mamie that it would not cost a fortune
to fix up her whole home handsomely if she bought her
furniture from
