The President's answer leaves the door open to the German people, if they will kick out the Kaiser, cease their atrocities and then accept such terms as the allied governments will grant. It invites peace, but only on those conditions.—Baltimore Sun.

It is all right for the small boy to be ambitious to become president or the owner of a bank, but we can tell him how ever attractive life may become during its golden years it will never be quite as full of joy as it is during the years when he can sleep with his dog.

The total amount of Fourth Liberty Loan subscriptions from St. Johns district which have gone through the Peninsula National Bank up to Thursday of this week reached the magnificent sum of \$1,169,600. Surely a showing which our people may well feel proud of.

Even if the Kaiser's peace offer was honest, as it was not, it would require twenty months to bring home the American troops now in France and the entire sum of the Fourth Liberty Loan would not accomplish this and pay other bills already contracted.—General Publicity Committee.

Girl workers in German war factories are paid weekly \$1.20 in cash and the rest of their wages are put into banks by their employers for the next loan without the formality of asking their consent. The enthusiastic response to the national war loans over which the Kaiser is so happy, is thus ingeniously explained.

During their five years stay in St. Johns they have made a number of warm friends, who regret their departure, but who wish them unbounded success and happiness in their new location.

The American Indian is giving an excellent account of himself at the front. Incidentally it may be mentioned that the American Indian had no small share in introducing the corn and tobacco now regarded so highly by military authority.

We strongly believe in the efficacy of prayer, if it be the right kind of prayer. For instance, we believe one man praying between the plow handles will get more response than 90 town loafers who do nothing themselves but stand on the street corner and importune the Lord.—Ex.

The big man in the White House has correctly gauged public opinion. The American public wants peace as the world wants peace, but we will fight until hell freezes over to rip the claws and the teeth from the beast that has ravaged Europe for four years. President Wilson has spoken for the American people and the civilized world.—St. Louis Republic.

Prof. William Herbert Hobbs says one of the most amazing facts connected with the war is that it was not foreseen by any of the historians and statesmen of any of the allied countries. We fail to see anything amazing about that. Naturally, historians are not expected to know about anything before it happens and satesmen don't know about it either before or after.—Mt. Scott Herald.

The GRABATERIA

The Cash and Carry Grocery can sell for less.
The Grabateria DOES sell for less.

WHY

The Grabateria is now enjoying the business of what was the three leading Groceries of this locality. Large business volume means large purchasing power which means favorable prices in buying. Selling for cash eliminates the bookkeeper and loss of accounts. Our delivery cost is low because the business is established on a cash and carry basis and many of our patrons drive up in their machine and do their own delivering. You are entitled to cheaper prices because we demand your cash. Our rent is low, the location ideal. No one will question but that the Grabateria is complying with the rules of the State Council of Defense in keeping down the cost of doing business. The selling prices are cut down in keeping with this low cost. The crowds that come into the store during the rush periods will verify all that is said here.
