How dear to my heart is the steady subscriber, who pays in advance at the first of the year. Who sends in his money and does it quite gladly. And cautions round the office a halo of cheer. He never says, "Stop it, I cannot afford it."

Nor, "I'm getting more paper now than I read." But always says, "Send it, the family like it." In fact we all find it the thing that we need.

How welcome his letter whenever it comes to us. How it makes our heart throb, how it makes our eyes dance!

We outwardly thank him, we inwardly bless him. The steady subscriber who pays in advance.

The Linotype Bulletin.

The complaints we hear from Berlin that the artists who have painted some of the horrors for which the Kaiser's army and navy are responsible have treated Germany unfairly brings to mind the story of the very homely man who complained that a photograph of him, just taken, fell far short of doing him justice. "Justice!" exclaimed the photographer. "What you are most in need of is not justice but mercy!"

When W. J. Bryan was secretary of State he negotiated and successfully arranged treaties with a dozen or more nations for the arbitration of all questions of dispute. He was ridiculed at the time and has been ridiculed since for so doing. Now it is just beginning to dawn in the minds of the world that these same treaties will come mighty handy as a basis or a stepping stone to a permanent world peace.

Mr. Bryan was only following his custom of being too premature with his ideas and issues. He travels from five to fifteen years ahead of the world; if he had kept back with the crowd he would have been president.—Ex.

Oleomargarine is life saver against outrageously high price of butter.

In days past we all heard of oleomargarine but few tried it. Conditions have forced a change and oleomargarine is a household necessity. High cost of labor and feed have forced killing of thousands of dairy cows, especially smaller herds, until today the small operator is out of dairy and butter business and prices have gone skyward. Oleomargarine is made from Oleo oil which is pressed from beef fats from government inspected animals, neutral, cooked from the leaf of the pig, government inspected, vegetable oil, such as peanut and cottonseed refined to salad quality, salt and milk and in the higher grades a percentage of butter. The British Government made tests proving favorable to calorific value of oleomargarine and adopted it for use in all government institutions. As we all eat oleomargarine in some form or other, it is well to know its contents and that it is made of wholesome products.

Our exports since this country entered the war have justified a statement made by the Food Administration shortly after its conception, outlining the principles and policies that would govern the solution of this country's food problems.

The whole foundation of democracy, declared the Food Administration, "lies in the individual initiative of its people and their willingness to serve the interests of the nation with complete self-effacement in the time of emergency. Democracy can yield to discipline, and we can solve this food problem for our own people and for the Allies in this way. To have done so will have been a greater service than our immediate objective, for we have demonstrated the righteousness of our faith and our ability to defend ourselves without being Prussianized."

Sending to Europe 141,000,000 bushels of wheat from a surplus of apparently nothing was the outstanding exploit of the American food army in the critical year of the war.

GREATEST OPPORTUNITY WOMEN EVER HAD. It was given to the women of this country to perform the greatest service in the winning of the war vouchsafed to any women in the history of the wars of the world—to feed the warriors and the war sufferers. By the arts of peace, the practice of simple, homely virtues the womanhood of a whole nation served humanity in its profoundest struggle for peace and freedom.

FIRST CALL TO FOOD ARMY. This co-operation and service I ask of all in full confidence that America will render more for flag and freedom than King ridden people surrender at Compiegne.—Herbert Hoover, August 10, 1917.
