Baby Expert Preaches Greater Use
Of Milk.

A milk bill and healthy children is
cheaper than a doctor's bill and an
underfed, under-nourished child. It
would be cheaper to start right. So
says Mrs. A. Bayley, of the Parents'
Educational Bureau, Oregon Congress
of Mothers, who has presided at the
feeding of thousands of babies. She
finds the milked youngster of three
or four years scores much higher than
the child who has had little milk in
his diet. Mrs. Bayley preaches a
greater use of milk for young and old.

BABIES MUST HAVE MILK

"You get more calories to the
penny from milk than from any
other food even at the present
price," said Dr. E. J. Labbe,
specialist, who returned recent-
ly from Europe and who spoke
at the State Fair and at other
patriotic gatherings. Dr. Labbe
told of the children he treated in
the Red Cross children's hospi-
tal in Evian, on Lake Geneva,
in France. The little French
and Belgian refugees were wan
and weak and almost lifeless.
A milk diet soon brought good
results and the babies thrived.
"But," said Dr. Labbe, "they
will never entirely shake off
the marks made by the months
in which they were starved for
milk. Children must have milk
if the race is to go on. It is
every man's and every woman's
duty to do all in his power to
keep the herds of Oregon alive.
Feed men, mill men, dairymen,
householders, dealers, everyone
must cooperate. The babies of
the world must be saved."

When Pleasure Is Expressed

By one of the family because
of excellent chops, roasts or
other meats, the answer is,
"Well, I bought it at the
St. Johns Cash Market"
That's a household phrase
around here. If you'd
want the best that the market
affords, in poultry and
meats, at a price that proves
we are lowest, why come
