The Consumer Pays The Bill

Do you have your groceries delivered? If you do you pay for it. Or do you have a grocery charge account? If you do, you the consumer, pay the bookkeeper and you the consumer of groceries pay for the losses incurred through credit accounts. Think it over. The Grabateria Cash and Carry Grocery has passed the city inspection as all groceries must if they continue in business. All the help at the Grabateria hold cards from the Health Board stating that their health qualification permit them to handle food products. We believe we are stating just plain facts when we say our buying capacity of Groceries is as large as any on the East side. Why? Because we have the outlet; it is known that quantity purchases obtain the best prices. Our sales are concentrated because we do not go out of our own zone. Who pays for the long delivery trips from Portland? You the customer; think it over.

Arriving at Shanghai, China, 23 days out from San Francisco, the new motor ship Adrien Badin, built by the Peninsula Shipbuilding Co., accomplished a voyage that would be a credit to any ship in the world. One of the incidents of the voyage was the experience of passing through a cyclone during which period the craft sailed under reefed fore and mainsail. Writing at sea in latitude 28 north, longitude 156 west, Robert Ferguson, master, said that the craft was averaging 170 miles a day. On reaching San Francisco on the outward trip the vessel made an excellent landing without aid of a pilot, and in departing saved an expense of a pilot, the total saving by this means being about \$1000.—The Ship Builder and Marine News.
