Cutting Down the High Cost of Living

The Grabateria Cash and Carry Grocery is not sending a \$2500 auto truck with two attendants to your door and claiming to cut down the "High Cost of Living." But The Grabateria Cash and Carry Grocery is reducing your cost of living expense by giving the customer the benefit of the eliminating of just such expense. We do deliver some Groceries but only those things like a sack of potatoes or flour, or when those things are bought with others we deliver them all. Who pays for the gasoline, the wear and tear on the truck, the two attendants, the tires, batteries. Those costs must be borne by the consumer. Is it not logical that a store with the buying capacity of your own local Cash and Carry Grocery can sell you goods cheaper, when you consider that the managers are workers, the rent is normal?

The sawing room at the St. Johns Lumber company was wrecked to quite an extent when the twelve foot wheel on the main shaft flew to bits Tuesday afternoon about one o'clock. The cause of the accident has not been learned. Flying bits of steel from the pulley wheels and drive shaft cut a number of holes through the roof and made matchwood of some of the timbers.
