THE REVIEW is entered at post office in Portland, Oregon, as mail matter of the second class under the Act of Congress of March 3, 1879.

The shortage of clothing in Russia became apparent from the dancers they sent over here even before the world war.

Prices were high a year ago because of the war and higher now because of peace. Very simple when you understand it, is it not?

The modern woman has one big advantage over her sister of a few years ago—she doesn't have to worry about whether her petticoat is showing.

The Slater, Mo., Rustler defines the one time above all others that a woman should be left alone as the time when a line of clothes comes down in the mud.

The trouble is that every time they sprout a new government in Europe we have to make a new loan. Between feeding our enemies and lending money to our friends we begin to feel like a good thing.—Ex.

Women secretaries will never be wholly a success until they learn that a man does not want his office desk straightened up and his letters thrown away every few minutes just because it makes the office look mussed to have papers lying around.

Organizations and individuals generally are advised by Collect or of Internal Revenue, Milton A. Miller, to underscore on their calendars June 15th, the last day for the filing of returns of information, giving the names and addresses of all individuals to whom payments of salaries, wages, rents, interest, commission and other gains, profits and income of \$1,000 or more were paid during the year of 1918.

During the battle of the Somme in 1916 the British army used 4,000,000 rounds of artillery ammunition, according to a statistical announcement published by the War Department. This is the largest number of shells used in any single engagement so far as records show. Second in amount of artillery ammunition used was the battle of Messines Ridge in 1917, when 2,753,000 rounds were used by the British. For a single hour, however, the American forces in the battle of the St. Mihiel salient in 1918 far surpassed this record, using 1,093,217 shells in four hours.

Chairman Hurley of the shipping board, has announced that he had taken up with President Wilson the question of permitting American shipyards to build ships for foreign account so as to broaden the opportunities for obtaining business and furnish continuous employment for their labor. A number of American yards, particularly those on the Pacific coast, have urged that the ban against accepting foreign orders be lifted so they might enter competition with foreign yards for tonnage to be built by Norway and other foreign countries.

One of the net products of the war was the demonstration that banks are the strongest factor in community service. In most cases the banks became the headquarters in the Liberty loan drives and met the increased demand generously. In nearly every city when called upon they put in additional desks and hired increased force to do the work necessary. The bank is the keystone in the arch of community service and is the strongest asset for community spirit. Banks are extending the community service idea to the country and are leading and specializing to produce farm prosperity. Many differences between capital and labor are smoothed away by a better understanding of all factors of the problem. So the old idea of a bank being in any way hostile to the interests of the producers is being changed into mutual helpfulness. There is no reason why there should not be the fullest cooperation between any honest well meaning citizen and the local bank.—Ex.

An Enjoyable Occasion

Sans Dieu Rein Class of the Evangelical Sunday School held their business meeting and social at the home of Mrs. W. L. Montgomery Tuesday evening, May 6th, at 8:15. Miss Ruth Edmondson, president of the class, called the young people to order and proceeded with the business of the evening. After singing that beautiful hymn, the Battle Hymn of the Republic, Mr. Monahan, teacher, read the Scripture lesson and then Rev. A. P. Layton, pastor, offered the invocation. The class then, under the direction of the president, proceeded with the business, the reports of committees, old and new business. Under the head of new business, the class discussed the necessity of having some definite object ahead to work for. The piano which the class bought having almost been paid for, they felt as though they had done so well that they could not sit down on their laurels now. A committee appointed by the president will work that out. The question of the annual outing of the class was discussed and a committee appointed to find a suitable place and appoint the time. The class also presented two of their number with small tokens of the class fellowship and appreciation in the new class which they have lately joined, namely the matrimonial class. The two who were the recipients of the class' esteem were, Mrs. Lawrence Svaboda (nee Brodeen) and Mrs. Ethel Anderson (nee Kimmel). We assure them they have the best wishes of the young people for their future. Also it was a farewell party for Miss Hazel Cameron, who leaves in the near future to make her home in Seattle. While we shall miss her in the class room we wish her a pleasant journey and a happy and bright future, and may she be faithful to Him who guides and directs. Mrs. Svaboda left Wednesday morning for her future home at Aberdeen, Wash. After presentation of the presents by the Rev. Layton, the hostess, assisted by her daughter, Miss Eldora, and Mrs. R. L. Lavrack, served a dainty lunch of ice cream and cake. I am sure it will be an occasion long to be remembered for fellowship and good will which prevailed. There was present forty; thirty-five being members of the class. The secretary stated there was a membership of 58 at the present time. Now, young folks of St. Johns, why not come and swell the number to 100? You will find a royal welcome.—Reporter.

A meeting of public interest was held at the high school auditorium Thursday evening, at which J. N. Edelsen presided. Prof. C. H. Boyd spoke on the desirability of having a public playground in St. Johns and gave a brief review of efforts made in the past to secure a park or playground. He advised organizing and making a determined effort to secure a playground. Mrs. Thompson, of Hood River, who gained much fame as a member of the last Legislature, made an earnest appeal for support of the Teachers' Salary measure at Saturday's election, and gave a number of reasons why the increase should be granted. She is a forceful, interesting speaker with splendid delivery. The meeting was well attended, and preceding the speaking delightful music was rendered by the orchestra and interesting drills executed by pupils.

For Sale Cheap

A plot of ground 100x500 feet, which contains twelve 50x100 foot lots, just across the river from St. Johns, bounded by Wood and Mills streets. For quick sale \$1000 takes them, which is less than \$100 per lot. Good terms given. Call at this office.

\$100 Reward \$100
The readers of this paper will be pleased to learn that there is at least one splendid disease that never has been able to cure in all the world, and that is scurvy. Hall's Cathartic is the only positive cure now known to the medical fraternity. Scurvy being a constitutional disease, requires a constitutional treatment. Hall's Cathartic Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby restoring the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

With a VICTROLA in your home every musical longing is satisfied. CURRIN SAYS SO.

ONE THING TO REMEMBER
Is that cheapness is impossible where quality is cheapened, too. Cheap Paint may be the very dearest sort if low prices are alone considered. We do not sell cheap Paint, but good Paint at as low a price as possible. When you buy here you get real values.

A PLAIN TALK

Let's get down to brass tacks, good people, and discuss a few things with regard to the Greater Portland Association. Seems as though you have heard that name before, doesn't it? Well, you are going to continue hearing it, until it sinks down into your subconscious mind just like 'Ivory Soap; it floats;' or 'Bon Ami; hasn't scratched yet.' We aren't doing all this advertising exactly for fun, you know. It would be too much of a luxury. We are doing it because we have one definite end in view—there may be some minor ones, but the principal one is that you will come as a matter of course to 'patronize the specialty man.'

The Greater Portland Association is not working for any particular specialty stores, nor for any particular section of the city. It is working to increase the business of every specialty store that has a legitimate right to exist; it is working to increase the prosperity of the city at large, and that must embrace all sections alike.

This can be done only as every person in Portland who buys any merchandise will do his or her fair share. It is the one method of accomplishing a fair distribution of trade here.

What about it? Are you, as an individual, doing your share towards helping the members of the Greater Portland Association? If not, have you any really good reason? Is it merely force of habit or indifference?

We ask you to shop where you see the sign of this Association.

Why not come in and get a new Couch?
Dear Mary:—
When you bought your new furniture did you overlook buying a nice new bed-couch? Well, I did and when company came all four of us tried to pile into one bed. We put James and Ruth in the middle to keep them in—and what do you think? I fell out. It was so funny, but I might have broken my arm.
I just must have a new couch which, when needed, can be converted into a bed. Don't you too, need one.
Hastily—HELEN.
P. S. Let's go down today and look at new couches at
