Save Those Pennies

If by buying your various Groceries you can save a penny on your butter, a penny on a package of seeds, a penny on a can of condensed milk or a bar of soap, a pound of lard, perhaps several pennies on a can of syrup or a can of cooking oil, are those pennies not worth saving? Do they not make the dollars grow when you know you must buy those articles and many more every week, almost every day?

Just figure it this way: If your Grocery purchases amount to \$30.00 monthly and you save fifteen percent on that amount by buying at The Grabateria Cash and Carry Grocery, at the end of the year you would have saved the price of a \$50.00 Victory Bond and \$4.00 over.

These are not simply sales-talks, just simply plain matter-of-fact statements. Think about it. Act on our suggestion and try dealing with us for cash, then compare your month's purchase with that of your charge account elsewhere.

The second Sunday in May has been set aside as "Mothers' Day" throughout the entire country. The day may be observed by wearing the carnation; doing some act of kindness; the writing of a letter to the mother far away; by a small gift or tribute to the loved one. How much we owe to mother, she who loved us first! Others may come and creep into our heart and fill it with a love that is almost pain, but in its holy of holies there is kept a chamber inviolate for mother. Whatever of good, of gentleness, of generous impulse that has blossomed in our lives, to her should be given credit. So today if mother is still living, let us lay our votive offerings at her feet. If she is in the land of dreams, let us offer up a blessing that we are privileged to have such a sacred memory.
