## Stock and Prices Talk

In any locality you will find the usual small cash grocery but St. Johns has the advantage of having a Cash Grocery Store that commands business and capital enough so that anything in the Grocery Line that appeals to the palate of any one is carried constantly. The Scales & Currier Cash Grocery is operated by men who think Groceries and talk Groceries as well as live on Groceries and live among the Groceries most of the time. The Scales & Currier firm know exactly what it costs to sell Groceries for Cash; there is no indefinite sum to enter in the calculated eost because of some people who do not pay their bills. When your selling cost is known to a certainty, when goods can be bought in quantities and when the owners are daily active in the conduct of the business and when years of experience is considered, is it not just common sense and reasonable when it is said you can save money by paying cash for your Groceries at the Cash and Carry Grabateria. Try it a month and see how much you will save over the old method of having the red tape of a charge ac-
