We Have Tried Both Ways

The Scales & Currier Cash Grocery is managed by men who have tried both methods of running the Grocery Business. They know they can beat the store that runs the red tape of the Credit Accounts.

It cannot be said that you are not trusted as the only cause of selling for strictly cash for we have trusted almost every body in this locality in times past. But the business is on a Cash Basis now for very good reason that we can get more business because we can undersell the credit store. And we can beat the City Store because we are closely connected with our trade; because we have one of the largest stocks on the Peninsula, if not the largest, and because we do not have to pay two people to make the trip all the way from Portland to deliver the goods.

Just try it for a month and you will be convinced that you are saving money.
