City Commissioner Pier and Peter McIntosh, the purchasing agent, finally located the car of canned tomatoes purchased from the government and which is now on the way from Sacramento and will arrive in Portland Friday or Saturday. These tomatoes will be distributed by the department stores, Meier & Frank, Olds, Wortman & King, and Simon Bros. at cost with the addition of freight charges. Should this lot be taken up promptly by the citizens, Mr. Pier will negotiate for further consignments of various kinds of foodstuffs such as bacon, ham, beans, dried fruit and canned vegetables.

## Will be Big Industry

Another big industry, that of the Central Waxed Paper company, of Chicago, has decided to come to Portland. A site for a factory, the only one of the sort on the Pacific coast, has been obtained in the North Portland industrial center adjacent to Swift & Co.'s packing plant and the construction of a mammoth factory building will be started as soon as necessary arrangements can be made.

Andrew Christ Jr., president of the Central Waxed Paper company, recently came to Portland authorized to get a site and arrange for the construction of the factory building on invitation of Whitney L. Boise, representing the Portland Chamber of Commerce. He has been in Portland for more than a week investigating various sites. Arrangements already have been made, it is said, to obtain raw material for the product from local paper mills, and the output of the plant at its inception will be between eight and ten tons a day and will furnish employment to between 75 and 100 workers. The entire market for waxed paper on the Pacific coast can be supplied by this plant, it is said.

**Had a Good Time**

C. S. Currin and Dr. L. E. Brous returned last week from a very interesting sojourn of five weeks' duration spent in Central and Southern Oregon. They spent a goodly portion of the time in quest of trout and landed some fine catches in the Deschutes, composed principally of Rainbow and Dolly Vardens. One trout weighed 5 pounds and two ounces and was a dandy. It was captured with a No. 2 fly and took over an hour to capture. The two traveled over 1200 miles by auto and enjoyed every minute of the time. They report everything in a prosperous condition throughout the country which they traversed. "Doc" Currin has some interesting kodak pictures taken during the trip and the strings of trout shown are enough to make the eyes of Isaac Walton's followers water.

## NOTICE

The Union Savings and Loan Company of Portland, Ore., organized under the laws of the State of Oregon and safe guarded by the Blue Sky law, of this State, have established an agency in St. Johns for the subscription of stock and collections. They already have a nice stock subscription from the very best and most conservative citizens of St. Johns who have investigated the Company and subscribed for the stock. It is a well known fact that Building and Loan Companies are the greatest cooperative money makers for their investors for the reason that they deal in nothing but cash. It is a proposition of compounding interest 12 times a year. All mortgages and notes and other securities are to be deposited with the State. To mature \$1000 will cost the investor \$5.00 per month for 100 months, paying in \$5.00 and at maturity the stock accumulates to be worth \$1000 face. Past experience indicates the stock to go to maturity in from 108 to 120 months. This accumulates you a nice stake on a small, onthly saving. You also have the privilege of a loan with this stock also to be paid in monthly payment. In case of sickness this company will grant a cessation of payments for one year, if it is necessary, on the stock. It is a good investment and a fine saving proposition. Any young man who wants to be thrifty and get into a proposition that is safeguarded by the State of Oregon, can call on our agent at St. Johns for further particulars. See A. W. Davis, 202 N. Jersey street, Resident Agent.
