Signing of Treaty is Authorized, But Protest is Registered.

SEATTLE GASLESS AS RESULT OF STRIKE

Seattle.—Seattle had a gasless Sunday as a result of a strike of 135 laborers at the various plants of the Seattle Lighting company.

Restaurants, relying on gas, closed at noon; earlier editions of newspapers went on the street with large handsets.

So many returned to take their evening meal in the good old-fashioned way, over a camp fire.

It was no infrequent sight to automobiles parties touring the boulevards to see the kitchen queen bent over a kettle in the side or back yard of some wealthy home.

His schedule for the six days will take him through every state that borders Canada west of the lakes, and will end at Seattle, where on Saturday afternoon he will review the Pacific fleet.

With the exception of Tuesday, in St. Paul and Minneapolis, Minn., and Saturday, when the president will be in Tacoma and Seattle, Wash., the presidential special will be almost continuously on the go.

Out of about 120 hours which will elapse between the departure from Des Moines and the address at Tacoma Saturday morning, nearly 100 are to be spent on the train.

BONHAM & CURRIER

The Store That Cares For You EVERYTHING FOR MEN TO WEAR Dry Goods and Shoes for Everybody

SHOE FACTS

The Retailer must buy his stock of Shoes from four to seven months in advance of the time they will be on his shelves. The Manufacturer must contract for his raw material and his labor before he can make and price his samples.

Immediately upon the signing of the armistice buyers of hides from foreign countries were on this side of the water negotiating for immense quantities of hides and contracting for millions of pairs of the finished product.

We have within a day or two bought Men's Dress Shoes priced at wholesale from the factory, in most instances from twenty-five to seventy-five cents more than we are selling them for at retail.

Now then: all reasonable people know that the retail business cannot be conducted at less than 20% of the sales and that much at least must be added to the cost of any shoes. And that leaves no profit to take care of left-overs or the risk of fire and the hundred other chances of loss.

Just this month and last we are getting the shoes that were bought last March and April. As explained above the raw material for these was contracted for before the European buyers were in the field and we own an unusually large stock, for us, at what are comparatively reasonable prices.

You are at liberty to get our prices and then go over town and see what you can do or vice versa. This has been done so many times recently and we have made the sales that we know are under the price of the City's Stores.

Mallory Hats

The Mallory Hats are known as the best medium grade hats on the market. There are no ten dollar hats; neither are any \$3.00 hats with the Mallory label. But we are well stocked with all the new shapes in the \$4.50, \$5.00 and \$6.50 grades.

Our stores welcome competition; it keeps any firm from traveling in the same old rut. We welcome a comparison of prices with any store.

Why the Electric Cleaner

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "yellow grease."

But people use soap because it cleans more easily and better than water alone.

For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.
