A crowd of thirty was present and all report a jolly good time. Lunch was served at 10 o'clock. The young lady was the recipient of a number of pretty and useful gifts.

Though but 19 years of age he is successfully farming 600 acres of wheat land, which he rents from his father, Frank Holdman of Pendleton. Clifford received a part of his early education in St. Johns at the Central school, going later to Pendleton where he attended the high school.

Mrs. Frank A. Rice announces the first of a series of class demonstration lessons for the parents and friends of her pupils, to be held at her studio, 412 S. Edison street, next Sunday at 3 p. m. The one fine feature of these lessons is that there is no special preparation by the pupil, as the work includes blackboard, note writing, sight reading and playing of scales as well as fine solos. Mrs. Rice is particularly successful with very young children, and has carefully prepared a short course for grown people wishing quick results.

A truck, owned by J. E. Owens of Water street, and transporting cement to the terminal caught fire at 4:30 Tuesday afternoon on Kellogg street near Reno, and before the flames were extinguished the machine was pretty badly damaged. During the winter months the library auditorium will be open each evening. It may be used as a meeting place for men to drop in and read the papers or magazines, carry on business discussions or talk on the affairs of the day; or it may be used for meetings of public interest. The current magazines and daily papers are on file in the library. Well heated, lighted and cheerful it will be a good place to spend the winter evenings. It is your building, you pay the taxes for its upkeep and its books. Why not use it?

Sugar is still pretty much of a minus quantity in this section of the world. Once in a while a sack reaches one or other of the local grocers and it disappears like snow in a tropical sun. Some of it is rather coarse, giving rise to the presumption that it might have been rushed through a coffee mill or food chopper, but nobody is raising any objection on that account. Just so it is sugar it is all right, even if powdered, cube, rock, brown, green or any other shape or color.

The meeting of the Woman's Christian Temperance Union will be held at the home of Mrs. Scott, 102 Central avenue, Monday afternoon at two o'clock. Mrs. Mary L. Mallet of Portland will speak for us. First she will bring echoes from the state convention which was held in Ashland, Ore., last week, and as she has been probation officer in the juvenile court in Portland for a year or more, she will have some very interesting things to tell us of her work along that line. It will be well worth your while to come and hear her. We hope every mother will come and bring a friend.—Reported.

George A. Keough died at his home, 913 DePue street, Thursday last week, aged 35 years. He was unmarried and made his home with his parents, being the only child. The cause of his death was not learned, an autopsy being taken to determine. He was a strong, robust young man, a returned soldier in the ambulance service, and he took suddenly ill, and in spite of prompt medical attention he passed away in a few hours. He was formerly a resident of Montana. The deceased was well liked by all who knew him, and there was a large concourse of his friends at the funeral and a profusion of beautiful floral tributes. The funeral services took place Monday afternoon at 2 o'clock at the chapel of the St. Johns Undertaking Company, Dr. Jones officiating. Interment in Columbia cemetery.

Jefferson jumped into the lead of the interscholastic league Tuesday by scoring a 21 to 9 victory over James John, it being the Democrats' third straight win of the season. For practically the entire game the James John team was kept on the defensive and had little chance to display their usual style of football. Jefferson resorted mostly to open play for their gains. The first quarter developed into a punting duel between Youmans of Jefferson and Schroeder of James John. The Jefferson eleven came out ahead in the kicking contest, as their ends were down on the punts and smothered the James John backs in their tracks, before they could return the ball. The James John team was in poor condition for the contest, several of their players being on the hospital list.—Oregonian.

Edward Anderson, an employe of the Eastern and Western Lumber company, rushed to the St. Johns police station Friday afternoon with a pair of handcuffs securely fastened to his wrists. He claimed that three men, representing themselves to be internal revenue officers, called at his place of work and ordered him to accompany them. They took him to a secluded spot on the Germantown road, where they handcuffed him to a tree. Anderson claims that the men searched him, taking \$4 from his pocket, but overlooked \$300 in currency. They then searched his room, he claims, and took liberty bonds and war savings stamps valued at \$250. According to his story, he released himself from his predicament by climbing the tree, which was a sapling, and working his handcuffed wrists over the top.—News.

A dance will be given by the R. N. of A. and M. W. A. at Bickner hall Wednesday evening, Oct. 22, from 8:30 to 11:30. Admission 25c each, including light refreshments. Music by Sneed's orchestra. Everybody welcome.

Why the Electric Cleaner

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.
True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and carpet beater will do the work after a fashion.
In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."
But people use soap because it cleans more easily and better than water alone.
For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.
