## The Grabateria Cash Grocery

The sales of the Scales & Currier Grabateria  
keep up because the prices are kept down.

It is easy to prove that our prices are lower than  
the regular charge account several-deliveries-a-day  
Grocery.

We make the prices consistent with a large vol-  
ume of buying, with the minimum of overhead ex-  
pense because we employ no bookkeeper, we make  
but one thorough delivery each day, we are both ac-  
tively engaged in the business, we eliminate the  
losses on charge accounts and our rent is low.

Make up a substantial order for us, give us your  
check and we will convince you that you are saving  
money. Try it.

## Music Lovers Choose the BRUNSWICK

MUSIC lovers choose the  
Brunswick Phonograph  
to play their favorite  
records, for it plays all records  
at their best.

The Brunswick Method of  
Reproduction makes this possi-  
ble. It consists of two out-  
standing, exclusive features—  
the Brunswick Ultona and the  
Brunswick Tone Amplifier.

### The Ultona

The Ultona is a scientific creation  
which enables one to play all records  
with faithful regard for the require-  
ments of each make. It is not in any  
sense a combination contrivance, but  
involves a fundamental principle of  
sound reproduction.

Nor is the Ultona a complex me-  
chanism. By a slight turn of the hand  
it is adapted to any make record, in-  
stantly supplying the correct position

on the record, the proper needle and  
diaphragm and the precise pressure or  
weight necessary to play that particu-  
lar record.

### The Tone Amplifier

The Brunswick Tone Amplifier is  
another improvement of fundamental  
importance. As the name implies, it  
amplifies the tone, making it richer,  
sweeter, truer.

This vibrant tone chamber, con-  
structed entirely of moulded holly-  
wood, free from metal, provides the requisite  
resiliency that unfolds and projects true  
tone. Like a fine violin or the sound-  
ing board of a piano, it complies with  
the approved laws of acoustics.

### Hear The Brunswick Before You Buy

One hearing of this remarkable in-  
strument is enough to convince the  
most critical music lover that here is  
the final type of phonograph.
