## INSURANCE FACTS

With replacement costs more than double what they were in 1914, the property owner who was fully protected by insurance at that time, is now less than half covered unless he has increased his fire insurance in proportion to the increased cost of replacement.

Fire insurance is the only commodity we know of that is cheaper than it was five years ago.

We represent ten of the largest companies writing fire insurance in the United States.

Their combined assets give us the largest writing capacity of any agency in the city of Portland.

We can give you immediate coverage and delivery of policy. Prompt and equitable settlement in case of loss.

With heavy interests in the community, a thorough knowledge of all lines of the insurance business, lowest rates and best of companies, is it not reasonable to suppose that we can give you better and more valuable insurance service than the wandering solicitor who may or may not be in the business when your loss occurs?

PLACE YOUR INSURANCE BUSINESS AT HOME and when a loss occurs you will be dealing direct with an agency you know and one that will give your claim the attention it deserves. Phone Col. 161 for rates. PENINSULA SECURITY COMPANY.

## For Sale for a Short Period

My home number, 929 N. Syracuse street. The ground is 50x100 and has seven fruit trees in bearing. The house has six good rooms and an extra dormer that may be used for a bed room. Full cement basement with wash trays; an economical furnace that heats the whole house. Bath room; bed rooms all have proper closets. The place has always been kept in excellent repair and during the past summer was tinted and painted inside. This is a proposition that is near the St. Johns Terminal, within walking distance and in line with an advance in price as the Terminal progresses. The premises may be inspected by applying to the owner or to Mr. Downey, the neighbor just north of the house. W. H. BONHAM.

## Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by restorative treatment, which is called the "Hollman" method. When the tube is inflated you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; since cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## Here is a BOOK

You should have

It has a most significant title:

# What to look for in buying a PHONOGRAPH

Its language is simple, its message instructive. It was written by Henry Purmort Eames, L. L. B., Concert Pianist and Lecturer, Director Pianoforte Dept. Cosmopolitan School of Music. Wouldn't you like a free copy?

THE BRUNSWICK PHONOGRAPH, which plays the records of ALL makes, invites the most rigid application of the tests Mr. Eames says should govern phonograph purchases.
