## The Consumers Harvest

Mrs. Housewife:—

Right now is your time to place orders for just as large a supply of Groceries as your Cash Buying Ability will permit.

It is not a matter of making money with the several Grocers of St. Johns; just now it is "who can sell the cheapest" and the consumer gets the benefit.

While the merry war is on among the Grocery Fraternity now is your time to reap the harvest.

The new order of Cash Grocery Business in St. Johns has increased the sales many fold as the prices are so favorable as compared with the city stores that the Grocery Business stays at home, which is just right. Look at these prices and buy all you can of any of the articles.

## The Gift to One that All Enjoy

The gift supreme is one that the proud possessor can let others enjoy. Such is the Brunswick phonograph. And for that reason it is probably the most practical of all—especially at Christmas.

### The Method of Reproduction

The Brunswick Method of Reproduction is exclusive, scientific, simple. It does not require an expert to appreciate the color, charm and exquisiteness it gives to tone. It opens up a heretofore limited world of record music.

On The Brunswick any make record can be played at its best. These marvelous accomplishments are made possible by two patented features that constitute the Method of Reproduction. They are the ULTONA and the TONE AMPLIFIER.

The ULTONA—plays all records, trust, finer, sweeter. It is not a makeshift contrivance but involves a genuine principle of sound. A slight turn of the hand presents the right needle, diaphragm and weight for playing any record.

The TONE AMPLIFIER—is an oval shaped vibrant tone chamber. Like the sounding board of a fine piano or violin, it is made entirely of wood and free from metal. Thus it gives the requisite tonal volume and eliminates all harsh, thin, metallic sounds. It meets all advanced acoustical and musical laws.

### Shop Early—Shop Here

Those desiring to purchase their phonographs by comparison can save many steps by coming here. We have every facility for giving the widest range of choice. With The Brunswick as the super-instrument for your guide you'll surely be right in your selection. The phonograph you want is here.
