A New Beauty

Occidental Combination

Gas, Coal and Wood Range

We recently added to our large stock of ranges this new beauty—and it is indeed a beauty—The manufacturers have put into its construction the result of 50 years experience in stove making. The Occidental has all of the best features of the Combination Gas, Coal and Wood Ranges up to date.

Unless you have had a Combination Range in your house, you probably do not fully appreciate the convenience of having all kinds of ranges in one.

For cold weather you have a coal or wood range and for warm weather a gas range.

The Occidental Combination Range is well constructed. It is the only range that burns coal, wood and gas at the same time to heat the same oven and top cooking surface without a change of parts.

It is

ST. JOHNS

The Cash and Carry Grabateria

We insist that St. Johns is getting Groceries at more advantageous prices than any other locality in Portland. The principal reason is that the cut prices have produced a volume of sales that formerly went to the City Stores. Now that volume is assured there is no good reason that these prices should not continue.

If there are any Cash Groceries in St. Johns profiteering it is without our knowledge. The system was originated not by us but by our predecessor and we are developing and continuing the process.

We know we buy right; we sell for volume and not for big profit on any item.

Here are some of the prices that remain until further notice.

Soda Crackers per lb. 18c
Graham Crackers per lb. 20c
Puree Tomatoes 2 cans 25c
Schillings Best B Powder 8 oz. 25c
