The Cash and Carry Grabateria The Changing Times

The era of Chain Stores came about because a group of men with large capital could, by starting stores in different localities increase the outlet of merchandise emanating from one source.

The Chain Store system is nothing more than any other store except the buying part is concentrated at one place. The buyers for these stores have their headquarters at the source of production and they buy direct from the packer or the producer.

It goes without saying that a buyer who can buy the same sort of merchandise for several hundred stores can command a better price than a buyer for just one store.

The secret of advantageous grocery prices in St. Johns is this ability to buy in connection with many other stores. That is why you have had established by this store better prices than prevail almost anywhere in Portland.

Coupled with this buying capacity, the activity of the owners, the acquaintance with the locality because of our long residence here ought to convince any one that we can do business at less cost than the average grocery.

We always believed that "a word to the wise was sufficient."

The Muskogee Times-Democrat narrates a sad story about a certain Mrs. Murphy, who went to her fruit jar bank one day and found that someone had taken the savings of many years, to-wit, eight hundred dollars. The money in the fruit jar was idle. It was out of circulation. It was rendering no service to anyone. Yet there are hundreds of persons in every community who are handling money in the same foolish, unproductive way.

Whatever is said about banks, money placed in them is more safe and is a basis of credit. Bank deposits add to the credit of the individual, the bank and the community in resources and stability. Always a certain percentage of deposits are loaned out to carry on industries, business enterprises and to employ labor.

F. W. Mulkey is being seriously considered by his friends as a candidate for the Republican nomination for the United States Senate that will be open for contest at the coming state primary election. In advocacy of his candidacy, it is recalled that he has twice represented the state of Oregon in the Senate, of the United States. The first time having been selected by the State legislature and again by the voters of the state at a general election and while in each instance his service was of short duration it was with honor to the state and himself. It is understood that Senator Mulkey has not up to the present moment consented to be a candidate, but his friends believe that he may be persuaded to see that it is his duty to the state and the republican party to permit his name to be used.

BAPTISTS TAKE NOTICE

On Sunday morning, February 22nd, following the morning service there will be a special meeting of the church. All members are requested to be present to pass on important business.—Dr. E. P. Borden.

Decision as to whether the city will purchase the Caples or the McKenna tract in St. Johns as a future playground and park site for children of this district will be reached by Wednesday, February 25, according to announcement made Tuesday by Commissioner Pier, in charge of the park bureau. Condemnation proceedings will be instituted by the council on the tract they decide to purchase.—Journal.

The Nichols tract was probably meant in above.

I hear men say, sometimes, "Great Scott! This is the village God forgot! There is no chance for me to rise, in this old burg of mossback guys." Then they go forth upon a day to fairer pastures far away; and there they find things just as bad as in their own abandoned grid. It cuts no ice where genius dwells; we'll always see it wearing bells. The man who has the goods may go to desert waste or arctic snow and there hang out his modest sign, and he will find that trade is fine. Ours is a quite dreamy town, but it would hold no fellow down. If some youth shows the proper fire, with wrench or hammer, brush or lyre, men drop their work for half a day to help him upward on his way. With proper stuffing in your head, there isn't any town so dead that you can't cut a swath right there, and nineteen kinds of laurels wear. And in the deadest grayest town a man may win a world renown. If you, fair reader where you are, can't hitch your wagon to a star, you couldn't do the trick in Cork, in Boston, Joplin or New York.—Walt Mason.
