**ACME QUALITY HOUSE PAINT**  
Look at the eaves of your house, there around the rain-spout—look at those shutters and window-sills. They should be protected at once by Acme Quality House Paint. It is cheaper to paint than to repair.  
Save the surface and you save all. Decay starts at the surface. So should protection. You insure your house against fire. What about decay? Take out a little paint insurance. Have your painter provide you with Acme quality paint insurance. He can get it for you here.
