COMMUNITY CLUB MEETS

The St. Johns Community Club gathered at the big establishment of the Log Cabin Baking Co. Tuesday evening where they were treated in a royal manner. About one hundred and seventy were in attendance, leaving the Peninsula Bank corner about seven o'clock and making the trip by auto. Arriving at the factory on Fremont, one block from Williams avenue, the guests were shown through the large and modern bakery. They were shown how the flour is mixed by machinery, how the loaves are rolled, put in pans and placed in the big traveling oven and how they come out at the other end baked. It was a very interesting sight. The oven, which cost \$45,000 to install, bakes 4,000 loaves of bread per hour, or 30,000 loaves per day. After the loaves are baked and cooled they are fed into a machine that wraps them neatly at the rate of 3,000 loaves per hour. The guests were shown through the laboratory where the tests are made and samples of the different ingredients entering into bread making were exhibited. The trip through the plant was a revelation to most of the guests, and the scrupulous cleanliness and sanitation in evidence everywhere was a highly pleasing feature.

After the plant had been thoroughly inspected the guests were conducted to the lunch room where a most pleasing and appetizing array of the fine pastries made by the bakery were in evidence in great abundance. These were supplemented by delicious ham sandwiches of the variety made in the long ago when they placed more than the odds of ham between the slices of bread. Delicious coffee was also served. In fact the generous hosts saw that there was nothing wanting to satisfy the cravings of the inner man.

Mr. Wright of the Log Cabin Baking Co. gave a neat little talk in which he stated that the plant cost \$325,000, that an average of 105 barrels of flour were used daily, that the plant has a capacity of 110,000 loaves per day, that special pains were taken to retain the natural flavor and color of their bread. Chairman Monahan gave a most interesting talk in which he described how Mr. Ritman, the originator of the plant, used

to carry big baskets of bread to the St. Johns car while Mr. Monahan was motorman in 1891, and sent the bread to St. Johns and way points. He told of the wonderful progress made by the company from this small beginning, and how the persistence and untiring energy of Mr. Ritman finally won out. Mr. Ritman made reply in a fine little address. He was followed by Mr. Wright and Mr. Schindle of the company. Interesting remarks were also made by Dr. Borden, A. E. Jones and J. N. Edlesfen. The chairman was authorized to appoint committees to take up the matter of a roadway to the Swift Packing plant with the county commissioners and one to draft resolutions embodying the necessity of a new high school building in St. Johns for presentation to the board of directors. It was decided to hold the next meeting of the Community Club at the auditorium of the high school building Tuesday evening, March 23.

Resolutions by Abe Martin and Josh Billings: That I will live within my inkum, I have got git trusted tew do it. That poverty may be a blessing, but if it is, it is a blessing in disguise. That I wont swop enny hosses with a deakon. That no man shall beat me in politeness, not so long as politeness continues to be as cheap as it is now. That if lovely woman snacks me on one cheek, I will turn her on the other also. That if a man calls me a phool, I wont ask him to prove it. That if a man tells me a mule kiks I will believe what he sez without trying it. That if enny body lozes even a goose I will weep with him, for it is tuff bizness tew loze a goose. That one of the riskiest things tow straddle iz the bak ov a 60 day note. That the best time tew repent ov a blunder iz just before the blunder iz made.—Ex.

The Sunshine Club met at the home of Mrs. S. W. Davis, 414 Calhoun street, Thursday afternoon, March 4th. The afternoon was spent doing needle work and the regular business meeting. Mrs. Frank Thornbren resigned the office of president, and Mrs. R. Shilts was elected in her place. Mrs. Campbell gave several selections on the piano, which was enjoyed by all. Dainty refreshments were served.

Dr. T. L. Perkins, who served a short term in the council as Finance Commissioner to succeed Dan Kellaher, has made a formal announcement that he will be a candidate again in the fall for the office of City Commissioner and should Mr. Pier, the present Finance Commissioner, declare his candidacy for the Mayorality, it may be possible that Dr. Perkins will be the successor to the office, in case he is elected. During his short term in office, Dr. Perkins made a host of friends, both in and out of the City Hall. Among the employees of the city he is considered the most eligible candidate of the office as Commissioner of Finance. He believes in more liberality in the city codes and ordinances and is against incorporation restrictions in building and similar codes to the point where the growth of the city is not impaired. Dr. Perkins is one of the most prominent members of the Dental Profession in the city and is also a member of the Elks and the Masonic order, having recently taken the degree of a Shriner.

Why the Electric Cleaner
There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping. True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt, and if you like the exercise and have plenty of time and strength a broom and carpet beater will do the work after a fashion. In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease." But people use soap because it cleans more easily and better than water alone. For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.
