### Why the Electric Cleaner

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removed dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt, and if you like the exercise and have plenty of time and strength a broom and carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."

But people use soap because it cleans more easily and better than water alone. For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.

And we do deliver your orders, large or small  
One delivery each day

President Wilson in failing to sign the water power bill just passed by Congress caused the measure to go by default and blocked constructive legislation for increased production. This comes at the end of a 12 year fight for the passage of legislation which would permit the use of our waterpower resources which now waste to the sea. Why talk coal and oil conservation in the face of such a policy. Refusing to permit development of American waterpowers under the present necessity of saving labor and fuel, can only be likened to Nero fiddling while Rome burned.

Water power development is so essential in newsprint production, which affects all the newspapers of the country, and is so imperative in every economic sense, that the action of President Wilson is beyond understanding. — Pacific Coast Manufacturer.

Besides having a direct effect, Review advertising has a "psychological" effect. Man told us the other day he had been trying to sell a couple of rabbits for some time without effect. He then wrote an ad and brought it to the office, but before the paper was published he came in and stated that he had sold the rabbits. Just the writing of the ad with the intention of having it published did the trick. Another man stated he had just finished an ad to bring to the office when a party came in and bought the property he was going to advertise. Advertising pays in more ways than one.

Wear ROGERS' OVERALLS.

The Peninsula lumber mill, producing 1,000,000 feet of lumber a year, will just double its capacity when expansion already in progress is completed. Three thousand lineal feet of bulkheading 40 feet wide now surround a tract that is being filled by a suction dredge. Upon this site will be built a complete new unit comprising a sawmill, planing mill, dry-kiln and dock for ocean-going vessels.

Fire, which swept part of the North Portland industrial area recently, has checked for only a short time the activities of the North Portland Box Company, which is to be immediately rebuilt. The loss of \$300,000 was entirely covered by insurance.

The dairy industry in the Tillamook section is seriously hampered by the lack of sufficient gasoline to run the milking machines. Cows cannot be milked by hand because of the scarcity of labor.

The Fenner Manufacturing Company is now receiving extensive additions. The company, which is the oldest making ready-built in the west and has the most complete equipment on the coast, turns out six complete houses weekly.

PANAMA HATS \$2.00, \$2.50, ROGERS.

# SATISFYING SHOES & HOSE

Dependable Lines of Merchandise

Satisfaction expresses the attitude of hundreds of customers who come to us for their wants. Our store is no longer simply a "drop-in" place to get the things needed quickly, as many suburban stores are but

we have reached the stage where a stock of dependable goods is carried that obviates the necessity of the tiresome trip to the High Rent district.

We are leaders in the Shoe and Hosiery lines in our district because it is known that they are SATISFACTORY and that the assortments are ordinarily complete; it is known that our patronage was not built on goods purchased by us simply because they were cheap.

The outstanding thought when we buy goods is to consider the intrinsic value. This applies to all lines and the volume of sales we command in the footwear line is proof that our policy is correct.

The MEN come back to us time after time for their needs in the furnishings line because they are SATISFIED with the goods we sell and are pleased with our endeavor to deal with all who come into the store in such manner that it is a pleasure to come to us.
