## Give Mother a Vacation

Vacations and play time are now considered so necessary to every worker that many employers and organizations are giving their employees one or more weeks of vacation, knowing that every one can do better work the remainder of the year because of the change and rest. But how often the vacation of the mother and housewife is overlooked and no plans made for her in the hurry of getting father ready for his annual fishing trip; then, Violet's clothes must be made for commencement and an extra dress for the round of house parties that follow this important event. Violet is so busy with the many good times and extra hours of study that she has no time to even wipe the dishes and mother lets her sleep late on Saturday mornings. Then the boys have found a fine place for camping a few miles from home, near enough so they can easily come home every week for provisions and some of mother's home cooking. There is the tent to be pitched, the bedding made ready, old clothes hunted up, provisions and equipment to be packed and mother remembers the forgotten articles, fills the first-aid-to-injured box, settles difficulties and by the time the boys are off she is worn out completely. Then canning and preserving time came and she spent the long hot days over the stove making jelly and bottling up cans of currants and berries, the hours that should have been hers to enjoy. Then there were little ones to clothe and care for, their little troubles to assuage, and oceans of ironing, washing, sweeping, dusting and baking to do. When September came, with the family eager to begin work again, it was no wonder that mother was too tired to be interested. When the children were all small she thought it necessary for her always to be with them, and as home was the easiest place to care for them, the habit of always staying home has become so strongly fixed that she must be urged and almost forced to take a rest. Both boys and girls can be taught to cook and care for the house so that mother's absence will not cause too great an upheaval. Let her choose her own vacation, no matter how queer it may seem to the family, for rest is doing what you like to do and doing it in your own way. She may choose a visit to some friend, a trip to the city where she can visit the art galleries, hear good lectures and plays, and go window shopping or to the quietness of the woods in a cottage where there is a hammock but no company, just getting the rest that her tired body needs. The plea of not being able to afford it will be one of her strongest objections, but once she gets the vacation habit, she will soon begin to plan for herself until it becomes part of the household regime.—The Modern Woodman.

# BOTTOM PRICES

The buying public is demanding lower prices: not

cheaper merchandise but there is a cry

of relief from top-notch market.

And there are bargains to be had if you are a good buyer. There are bargains in a wholesale way and we have been alive to the situation and have secured our share.

Some of these are constituted in fall goods that are arriving daily. These we have marked right down to the **BOTTOM** of profit **ALWAYS** but we shall endeavor to do business this fall on a still closer basis. We know we can do this as our experience in this community has assured us that we shall have the volume: why not. Our stock has passed that stage of a just a drop-in store and almost everything in our line may be had right here and let us remind you minus the car ride and car-fare.

## PLAY SUITS

A good buy on Children's Playsuits enables us to supply you with a good substantial garment at what is less than the wholesale price today. They come in plain blue denim, white stripe and khaki color. Size two years to ten years, price, any size of this line.....\$1.50

## Sandals and Tennis Shoes

It is not too late to fit your boy or girl with a pair of Sandals or Tennis Shoes. They will wear the remainder of the summer. Even at some reductions from last fall and spring you will find shoes still high priced when you come to fit the children for school. Save by using a temporary shoe while the weather is suitable.

## White Footwear for Women

There are still some sizes in White Shoes: the rubber soled canvas or poplin summer Shoes and Oxfords for women. The prices on these take the season-end reductions; they are worth while.

## Bathing Suits

As there are still too many Swimming Suits to carry over to next season we are going to continue the 15 per cent reduction on these another week. It looks like several weeks of swimming weather yet.

## Community Club Picnic

Everybody should talk up the Community Club Picnic at Columbia Park on the 25th of this month. Each family to pack its own basket and bring the children. Everybody to make himself acquainted with everybody there.

## Our Men's Department

Every thing for the man who works out of doors, for the man who dresses for occasions, for the man who goes camping, for the business man and for any or all of the boys of these men will be found at our store. We have the stock, the proper prices; we save you the carefare: we keep open till 7:30 evenings for you and later on Saturday night.
