The Good We Can Do

The bread that giveth strength,
I want to give;
The pure water that bids the
thirsty live;
I want to help the fainting, day
by day.
I'm sure I shall not pass again
this way.
I want to give the oil of joy for
tears,
The fainting to conquer, crowd-
ing doubts and fears;
Beauty for ashes may I give al-
way;
I'm sure I shall not pass again
this way.
I want to give good measure,
running o'er
And into angry hearts I want to
pour
The answer soft that turneth
wrath away;
I'm not sure I shall pass again
this way.
I want to give to others hope and
faith,
I want to do all things the Mas-
ter saith,
I want to live aright from day to
day,
I'm sure I shall not pass again
this way. —Exchange.

The Peninsula National Bank
has just installed a handsome
new safe that is a marvel of in-
genuity. It is of Manganese
steel construction and was man-
ufactured at York, Penna. It
is much more commodious than
the safes it replaces and weighs
three tons. It is absolutely bur-
glar proof, and for strength, du-
rability and attractiveness it is
unexcelled.

Mrs. J. F. Gillmore left Tues-
day evening for a couple of
months' visit in Texas. She
was accompanied by her uncle,
Billy Pearce. They will stop at
Midland, Texas, and different
points in West Texas, where
her mother, three brothers and
one sister live and are engaged
in the cattle business. They will
go from thence to Breckenridge
and Strawn, where her daughter,
Lila, and husband are in the
big oil fields there. Mr. and
Mrs. Decker will meet them at
Midland and all will visit to-
gether and then the party
will go to Strawn. Mrs. Gil-
more will return via Denver and
Southern Oregon.

More than \$1,000,000 was paid
this week by Stanley Dollar of
San Francisco for the Monarch
mills near East St. Johns, accord-
ing to L. W. David, owner, who
made the sale. The property
will be operated by a company
of which Mr. Dollar will be the
head, but Mr. David will remain
as manager of the mill. The mill's
capacity, 250,000 feet a day,
will be reached after certain re-
pairs are made, it was announ-
ced. The new owners will en-
deavor to have the harbor at their
water frontage enlarged so that
ships of the R-bar Dollar line
may touch at the mill and trans-
port lumber to the Orient and
other parts of the world. It has
been predicted that the mill,
with the Dollar interests back-
ing it, would prove one of the
large producers of the state.

Why the Electric Cleaner

There is really no comparison
between the ease and thorough-
ness with which an Electric
Cleaner removed dirt and the
difficulty of sweeping.

True, one CAN clean rugs and
carpets without an electric
cleaner. A broom or carpet
sweeper will brush up SOME
of the dirt; and if you like the
exercise and have plenty of time
and strength a broom and car-
pet beater will do the work after
a fashion.

In the same way one can
wash without soap. Water al-
one will remove some dirt if
applied with enough "elbow
grease."

But people use soap because
it cleans more easily and better
than water alone.
For the same reason people
use Electric Cleaners because
they clean more easily and far
better than other methods.
