Will You Be Convinced

The Grabateria has no high priced fixtures that the customer must pay for; it has no bookkeeper to keep your charge account; it has no bosses because the members of the firm are active workers; it makes no pretense of delivering a package of yeast or quart of milk or one loaf of bread. The Grabateria buys with one hundred other grocers who buy many things as cheap as does the jobber.

All of the things that go to increase the price to the consumer have been eliminated to the last cent.

If you would be convinced that you are paying more for your groceries than you could buy them for at the Grabateria, just do this—

Try us out one month, compare the prices on your slips with those of the grocer from whom you have been buying and if at the end of the month you have not saved from two to seven dollars, according to the volume of purchases, we will give it up. We pay low rent, we pay no interest, we take advantage of every penny of discount and we have in mind for our profit only volume at the lowest margins.
