

## Reducing Prices

Last week we announced a very substantial reduction in the prices of rugs, owing, primarily, to the fact that we are overstocked on that commodity and to our willingness to "take a chance" that we can replace the rugs which we are selling now at reduced prices, a little cheaper than the present market quotations, although we have no assurance from the manufacturers that such will be the case.

We have just received notice of a reduction in the price of some grades of cotton mattresses and have marked our stock to conform to the new lower price list.

It is our policy to give to our customers the very best values and lowest prices that market conditions warrant.

Our stock is so large that it is impossible to display in our windows all of the "Specials" which we have to offer, but you are cordially invited to come in and look over our stock for the purpose of comparing prices. Look for the RED TAGS; they are used to identify the "drops," "close outs" and "specially reduced" price articles. All of our prices are marked in plain figures.

Don't forget that we have an Exchange Department, and that you can turn in any article of household furniture as part payment on rugs or pieces of furniture which you may choose from our stock; the balance may be paid in weekly or monthly installments, if you wish.

This certainly has been a great day for everybody. I, too, have been enjoying myself. I took one of those dollar-a-minute rides in the airplane. Gee, it's a wonderful sensation. But I'm not going up again. Not me. When we were about forty miles up there in the clouds, the pilot started down. He was headed, nose straight down, for the crowd. Then when he got a couple of hundred feet from the ground he straightened her out and flew away as nice as you please. The people on the ground scattered frantically. The pilot laughed and said to me: "Did you see 'em scatter?" Ninety per cent of the people down there thought we were going to crash to the earth. "Yes," I said, "and fifty per cent of the people up here thought the same darn thing!" —Kablegram.

## 'Capital and Industry--Keep Out'

WOULD YOU, AS A PATRIOTIC CITIZEN OF OREGON, PLACE SUCH A SIGN ON THE BOARDS OF THE STATE?

That is exactly what you will help to do if you do nothing to prevent the passage of measure No. 314 and 315 on the November ballot entitled, "Constitutional Amendment Fixing Legal Rate of Interest in Oregon."

This measure proposes to limit the rate of interest in Oregon to 5 per cent. You can, by law, fix the rate of interest in Oregon, but you cannot, by law, force the loaning of money in this state, when a much higher rate can be secured elsewhere. The passage of this measure would force the withdrawal of the millions of foreign capital which is today loaned on factories, business and real estate in the state and send your local money owners outside of the state to better investments.

Passage of this measure would mean foreclosure of thousands of mortgages; would result in financial paralysis, and would mean widespread unemployment.

You, no doubt, understand the viciousness of this measure, but have you talked to your neighbors and friends about it? We urge you to do everything you can to defeat this measure. Oregon's reputation as a sound state for investments requires that this measure be overwhelmingly defeated.
