THE REVIEW is entered at post office in Portland, Oregon, as mail matter of the second class under the Act of Congress of March 3, 1879.

Mrs. Nellie Darnell of Kalama, Wash., is the guest of her sister-in-law, Mrs. S. C. Cook.

Mrs. A. M. Stearns contributed her automobile for the cause of the Hoover European relief fund.

Mrs. Sarah A. Kemp has been quite ill at her home, 614 N. Smith avenue, is reported some better.

We desire to express our sincere thanks to the neighbors and friends for their kindness and sympathy during the death of our son, and can assure them the same will ever be gratefully remembered.—H. Elkins and Family.

If there are any groundhogs in this part of the world they saw their shadow Wednesday if they were minded to get out and look around. In any event the weather will be somewhat uncertain for the next six weeks to come.

A birthday surprise dinner was given in honor of T. J. Monahan January 27th at the home of his son, Ed, at 905 South Ivanhoe street. The occasion was a very enjoyable one. The birthday cake, trimmed by Mrs. Gates, was graced with 67 candles. Mrs. Monahan was assisted by Mrs. C. H. Thayer and Mrs. W. H. Monahan.

The meeting of the W. C. T. U. will be held at the home of Mrs. J. C. Scott next Monday afternoon at two o'clock. The meeting will be in charge of Mrs. S. J. Kerr and Miss Kathryn B. Scott. The subject, Child Welfare, will be very interesting and helpful. We hope for a good attendance, especially of Mothers, but every one is more than welcome.—Reported.

Doris Bay, 5 year old daughter of Mr. and Mrs. Clifford Bay, 132 Hartman street, won the trophy in a music sight reading contest of a class of fourteen held recently at the studio of Mrs. Frank A. Rice, 412 South Edison street. She also demonstrated her ability to give tonic triad in any major or minor key. All of her selections are played from memory and most of them she can write from memory.

In addition to unusual ability as a musician, Doris has acquired a knowledge of books that rivals a child in the fourth grade. She reads readily from the fourth reader, never hesitating at words of four or five syllables and spells them equally as easily. She adds, subtracts and multiplies and writes a legible hand. She carries on a regular correspondence with her grandmother. Doris is not, however, a bookworm. She enjoys her swing and bar and has just as much fun on roller skates as the average youngster. When Doris was nearly three, her mother began teaching her the phonics, using the Beacon system, the system now used by Portland public schools.

## HOW LITTLE---

You realize the important part good light plays in your daily life.

It may excite gaiety—or invite rest. It may annoy—or it may please.

Just as stirring music may fill you with one emotion, and a plaintive air with quite another, so lighting of the right kind, may help you work, help you play, help you think and help you relax.

It is not too much light that annoys, but the raw, unbroken rays, reaching your eyes direct from the dazzling filament of the lamp.
