### We advise a buyer's Strike on SUGAR

Why did prices drop? You, the consumer refused to pay the top. Just apply that effective action to sugar and the announcements of shortage and higher prices, advances etc. will vanish like thin air.

But if the sack grabbing game gets under way you will pay \$20.00 a sack in another two months.

For ourselves, we are not going to speculate. If we did we would be a factor in boosting the price. Manipulation is just as plain as day to the experienced buyer. What are YOU going to do about it?

It is up to the consumer, if you demand the sugar the boosting by expecting us to sell you a sack of sugar. Don't buy.

We know we can protect our trade in all other lines if we eliminate the sack sugar business.

Moderation in all things wins in the end.

Mrs. Cora Davis of the Welfare Bureau of Portland was present and gave a very interesting talk, also complimenting the club for the good work being done by it in the community.
