

**HOOD**  
WHITE ROCK  
PORTLAND

You couldn't make them better if you made them yourself.

YOU couldn't buy better materials, blend them any more carefully or put them together with any better workmanship, even had you been a lifetime on the job. For HOOD in the new White Rock Portland has met all your needs with the experience of a generation.

Best grade wool uppers, all fleece linings, strong insoles, and the 4-ply rough sole of tire-tread stock—all driven together for miles of wear by the Hood Pressure Process. Ask at your shoe dealer to see the White Rock Portland. If he hasn't them, write us. Remember, HOOD is your guarantee.

HOOD RUBBER PRODUCTS COMPANY, INC.  
WATERTOWN MASSACHUSETTS

"I never knew how good rubbers could be," White Rock wearers tell us. That will be your experience, too, because not a single pair leaves the HOOD plant without full inspection. Sturdy, gray, tire-tread soles joined to heavy black uppers by the Hood Process. Made in all sizes for all kinds of hard service. They are leaders.

Do you remember the old black pure gum boots which were still good after years and years of keeping? HOOD Red Boots are the only red boots which will act the same way. And they clearly show the value of the patented Hood Pressure Process. Red Boots wear long and look well.

WHITE ROCK, WATERTOWN

**Family of Seven Die Together.**

Because they could no longer stand the agonies of starvation, a Chinese family of seven committed suicide. The father and mother first bound their five children together, then lashed themselves to the children, and all leaped into a river. The seven bodies, all bound together, were seen by L. V. Lewis of Portland, who recently returned from the famine section in North China.

"With 45,000,000 starving, the situation is a colossal tragedy," said Mr. Lewis, "and rather than see their children suffer any longer, parents all through the famine lands are killing their little ones and then themselves. There are millions of gaunt, emaciated, half-naked men, women and children roaming the famine lands, chewing roots and bark, and hanging tenaciously to life, in the effort to pull through until spring. The relief organizations are struggling against the overwhelming situation, and are saving some of those on the edge of the great famine district. Surely every man, woman and child in Oregon will want to give something towards the China Famine Fund."

Spreading over North China, with the speed of a hurricane, is a horrible calamity of suffering and starvation, of pestilence and death—all due to the most terrible famine the world has ever known. The following cable from Admiral Tsai Ting Kan, paints the gruesome picture:

"Five northern provinces are famine-ridden. Whole districts living on weeds and leaves. Selling or drowning children. Whole families committing suicide. Children suffer most. Calamity so colossal is hard secure funds for adequate relief. Epidemic feared in spring."
