

ELECTRICAL Housekeeping

Night hours is insufficient time for human hands to perform all the household tasks. However, it is possible to establish the eight hour day in the home by making use of the electrical hands that are offered to you in the form of the electrical dish-washer, washing machine, ironing machine, vacuum sweeper and many other labor saving devices.

These untiring "household assistants" will do your work quickly and efficiently. Your home can be run systematically with these electrical hands for they never disappoint you or grow tired. Your time and energy can be devoted to the better things of life, when you keep house electrically. Glad to show you any time—Two Stores: Electric Store—Electric Bldg. "—1st and Alder Sts.

Boy's Shoes

Some parents think that any kind of a rough cheap shoe is good enough for a boy. That is the wrong idea.

Shoes that are all solid, of well construction, smooth inner soles and lining will save enough on the stockings to make up the difference in cost.
